### Why a Community Newspaper?

Contest Sponsored by Adrain Vankovering of Zeeland, Mich. By Miss Minnie Cook, Belding, Mich. (Favorable Mention)

OUR topic, "Why a Community Newspaper?" brings a smile, and we find ourselves wondering just how a community could exist without a newspaper. We scarcely realize how much our newspaper means to us—we have become so used to its weekly visits that, like the air we breathe, we take it for granted. But when an extra good number for instance, at Christmas time, comes to our attention—then we wake up to the fact that we have a really alive editor who feels that the best is none too good for our community.

Should you chance to have a member of your immediate family taken suddenly and seriously ill and it became necessary for you to call in the family physician, he might, by watching his patient closely, come to some conclusion regarding the case; but the physician does not wait for this—he watches carefully, the patient's pulse and is thus enabled to handle his case more satisfactorily. Should a business firm consider the possibility of locating in your city—like the physician, he would take the time to study its pages carefully. Of necessity he would be bringing his family to your city and would note whether your schools were adequate, whether there was a hospital available in time of need; also he would be interested to know if the church of his choice had its weekly program in its pages. He would take special note of the coming events. In other words, he would seek to know if your city had an upward trend—was his business, would co-operate with him in helping to make his progress a success. Special notice would be taken of your want column and of your ads as any business, to be alive, must advertise.

Then there are the always welcome letters from former residents dwelling at length on the fact that they have so enjoyed our community newspaper which seems like a breath from home. They have either subscribed for the paper or are enjoying it through the kindness of a friend. Through its pages we are often so fortunate as to locate a friend or a relation, who, through the years has been lost to us. Our editor, necessarily a genial, kindly man, else he could not successfully cope with the problems that arise from week to week, always aims to write his newspaper articles from such an optimistic angle that they are an inspiration to the reader. Then, in the fall before our schools open we celebrate Labor Day or Homecoming Day. It is the community newspaper with its glad invitation that goes into the by-ways and hedges and invites the people back to their home-town back to renew acquaintances of by-gone days. Many come with baskets and there are family reunions and glad hearts and the community spirit is strengthened and still you persist in asking and need I tell you more?

Why a community newspaper? Just scan these pages over. It has proved itself a friend in need, and we love it more and more.

Carlton drew first blood in the game with a score in the first inning, but was held scoreless during the balance of the game. Hillsboro scores came in the second, third, eighth and ninth innings.

The "Bears" have been almost completely re-organized during the past few weeks and Manager Ray Dillon predicts that the squad will begin to turn in victories. E. Mallory and Jack Houser were added to the local line-up this week while E. Stangel and B. Barron were released.

Amity maintained the lead of the league by blanking Newberg 3 to 0. Two homeruns accounted for the winners' runs. The visitors took the lead in the third frame with two runs, built up the advantage in the fourth with three scores and clinched the victory with two more in the seventh. Hillsboro pulled out to your city in the ninth inning when Aloha had two men on base and one out. Stang made the next batter hit into a double play to retire the side.

Tualatin was the only one of the previously undefeated teams to drop by the wayside this week, losing to Gaston 5 to 4.
