

Tigard Plans Grange Booth County Show

(By Curtis Thiers)
TIGARD—Tigard grange will have a booth in the Washington county fair at Hillsboro, it was decided August 15. The grange showed August 15. The grange showed lantern slides and gave a lecture on India. Rev. Smith was missionary in India for a number of years and brought back a number of interesting scenes on Indian life. Oregon's hottest days are compared to India's cooler ones. Rev. Smith declared Mrs. H. W. McDonald was elected secretary to fill the vacancy caused by the resignation of Mrs. O. H. Butler. The grange will meet at Tigard for the next meeting. The grange basement will be donated to the use of the county in establishing a relief canyery under SERRA projects.

Wheat Yield Low
 Farmers are wondering where they are going to get any good wheat seed for next year as the harvesting work in region around this section has run from 5 to 15 bushels per acre. What wheat there is, is not full size and the wheat is light. It seemed to have fared better and are running around 35 to 40 bushels with the weight on the average low.

Tonkin Advances
 Word has been received in Tigard that George Tonkin, former resident here for a number of years, has been given a new position with the biological survey with headquarters at Winona, Minn. He will take over the regional director's office in the region No. 4 which includes Minnesota, Wisconsin, Illinois, Iowa and Missouri. Tonkin has been United States game protector of California for the past two years prior to his new job. He was one of the early school teachers in this district.

Mrs. B. S. Frewing Treasurer
 Mrs. B. S. Frewing of Tigard was elected treasurer of the Women's Missionary society of the Evangelical church in Oregon at the thirtieth annual convention which closed recently at Jennings Lodge, Mrs. Ezra Maurer, formerly president, was selected as fourth vice-president. Rev. Maurer suffered a heart attack while supervising the commissary at the convention and according to the last report is still in a Portland hospital.

Three Tigard boys, John Woods, Allan Bates and Dirck Nedry, have completed the C. M. T. C. training at Vancouver. They plan to attend the training course next summer. Local organizations are banding together to get completion of the highway project through Tigard. Regular services are again being conducted at the Evangelical church after the interruptions caused by the summer conference of Evangelical churches of Oregon. Members of Tigardville Rebekah lodge had the pleasure of meeting with Mrs. Grace Christensen, president of the Rebekah Assembly of Oregon, at her official visitation to Scholls. The local lodge is going out after the prize in the attendance contest being conducted by the Rebekahs and members are being urged to attend lodge sessions.

A real game of kitchen ball is expected to be put on Sunday when teams of Argonne post, American Legion of Snerwood and Tigard, and West Hills of Madras meet in combat. There is considerable rivalry between the two posts. Rev. Van Marter of Tigard conducted services at the Methodist church during the absence of their pastor, who attended the Epworth League institute at Falls City. A number of young people of this locality also attended the institute.

A TIP FOR THE MAN WHO DRIVES HARD AND OFTEN

Seems like American folks are just beginnin' to realize the value of drinkin' milk, too, because they've increased the use of it ten per cent in the last ten years and each one takes about 40 gallons a year. Get the cream out of the ice box, sister. 'There! I guess that meat's brown enough. I'll get it sliced, and the threshers can get ready to take on their ration of meat, which it seems they ought to be willin' to do, seein' that meat eatin' in the United States has increased half a million pounds over 1922, every body in the country eatin' four pounds more than they used to. So maybe it's true that American people dig their graves with their teeth, but if it is, it's good news for the coffin makers.

"Most of us, though, don't want to see coffin heads" our way out we're ready for them, so travelers on the Colorado Springs-Pueblo highway near Colorado Springs got quite a shock when they found the road full of splintered coffins. Enquiry revealed that a trailer loaded with coffins and being towed by a truck, broke loose, rolled down a hill and crashed into a bridge. The splinters told the rest of the story. 'Good land, here they come! Take them towels out and put them on the wash bench under the tree and see that there's plenty of soap. Land, I'm so flustered! Put the biscuits in the blue dish and neta a plate for the gravy—land, no, I mean pour the gravy in the plate and put the biscuits in the blue dish good land, Junior, if you don't get out of here with your
