School Dresses That Head Their Classes

ATTIRED IN THESE DISTINCTIVE FROCKS, COLLEGE LASSES WILL FIND THEIR WORK IMMENSURABLY MORE ZESTFUL.

EASILY made, practical, possessing definite charm and magnifying any young lady's happiness at being back in college, the two frocks pictured above offer the co-ed the opportunity to build her wardrobe advantageously and at little expense.

For the pert collegiate outfit indicated as Pattern 333, washable silk, or a heavier fabric if desired, is needed for the blouse; broadcloth for the jacket and skirt.

This model comes in sizes 14 to 20 and 32 to 42. Size 18 calls for 3 1/2 yards of 35-inch fabric for the jacket and skirt, and 2 1/4 yards for the blouse.

The other youthful frock, Pattern 347, with its soft dotted tie and belt and its big buttons, lends charm and distinction to all who wear it. Made of heavy crepe or novelty woolen, this town frock promises to be as serviceable as it is attractive.

It is designed for sizes 14 to 20 and 32 to 42. Size 18 calls for 4 1/4 yards of 39-inch fabric with 1/2 yard contrast.

With simple, yet distinctive lines, Model No. 347 is exceptionally easy to fashion.

Danger Tax Limit Plans Here Cited

(By Mrs. R. P. Rasmussen)

O. B. Kraus, county superintendent of schools of Washington county, in his first interview as chairman of the legislative committee of the county council of Parent-Teacher associations, said that if the 20-mill tax limitation amendment is passed by the voters at the polls next week there won't be any money to run the high schools of Washington county.

Mr. Kraus said the elementary school fund would then furnish only \$113 per teacher and only \$5 per child on the district census. This would make it necessary for practically all grade school districts to levy the full five mills allowed by the amendment. Even the full amount of this levy in many districts would not keep the grade schools open for any thing like the normal term.

"In this case," said Superintendent Kraus, "schools would be closed simply nothing. It would mean that all the high schools in Washington county would be compelled to close their doors. Do the people of Washington county want this?"

ELECT H. D. Kerkman

Republican Candidate for County Commissioner

On May 28, 1934, the President of the Washington County Tax Reduction and Equalization League in his annual report to the League made the following statements:

"In comparing the road levy of 1933 with other years we find that it is about the same as the levy of 1914 and considering that some of these funds were used for relief and that we have many more miles of road than we had in 1914 the savings enumerated clearly show that economy has been the watchword of the members of the County Court and Road Engineer."

He further stated:

"Examinations show that the affairs of this county so far as the Court has control are efficiently and economically managed."

This report was printed in the County papers in the edition of May 31, 1934.

VOTE FOR H. D. KERKMAN for COUNTY COMMISSIONER and for a continuation of this efficient and economical management of county affairs. (Paid Adv.)

ELECT J. W. RAYNARD

Democratic Candidate for STATE REPRESENTATIVE

I have lived on a farm in Washington County, Oregon, continuously for forty-five years during which time I was manager of a local farmers' telephone company for about ten years.

I shall not make a lot of promises which I know cannot be fulfilled for the purpose of securing votes, but do make one promise and that is that, if elected, I shall give my full time and attention to the duties of the office and will support any measure or measures designed to lessen or more equally distribute the burden of taxation.

I believe in the principle of an Old Age Pension, but also believe that it should be financed by some means other than a tax on real and personal property.

I believe the so-called Milk Bill passed by the last legislature is a move in the right direction but I believe it should be strengthened. I believe the producer should receive a greater portion of the price paid by the consumer than he now receives. Out of the recent increase in the price of milk, the producer has not received his just share.

Oregon has the Income Tax, the Intangibles Tax, a Gift Tax and other forms of indirect taxation. I believe the various forms of income taxes should be strengthened to the end that real and personal property shall bear less of the burden of taxation. A move is on foot to increase the salary of public officials and employees. I am opposed to such movement. I believe that public officials and employees receive greater pay for their services than the pay of our farmers and producers.

I desire to see Oregon benefited in every way possible as connected with the construction of the Bonneville Dam but I do not believe this is the time to burden the State of Oregon with a great bonded indebtedness until it is definitely determined what we may expect from the Federal Government in the distribution of electric power and energy in the State of Oregon generated at the Bonneville Dam, bringing to every manufacturer, every city dweller, and every farmer its benefits on equal terms. Even when this heater is not lighted, the new Self-firing Glaze Radiants of this gas heater glow with the charm of an open fire. This featured model was designed for fireplace openings 22" to 36" wide.

● The supply of genuine Humphrey Radiant-fires which have been specially priced at \$15.75 are almost sold out! Order yours now! For any left after Nov. 7 must sell for the regular price of \$27.50.

Cozy and convenient!

You'll like the way this Sparton model Radiantfire banishes chill in the morning before your furnace "gets down to business" and on days not sufficiently cold to make you want to light your furnace. This gas heater is extremely cozy in the evening because the lighted radiants take on a glow similar to an interlaced mass of red hot twigs. It affords the charm of an open fire without being accompanied by smoke, ashes, dirt or bother. It can be regulated to provide just the amount of warmth you desire.

Healthful as sunshine!

Turning on a Gas Radiantfire is like "turning on the sun." Science has proved that these heaters produce both ultra-violet and infra-red vibrations of such a moderate intensity that everyone may enjoy their beneficial effects. No harm comes from continued exposure.

Inspect this specially-priced Radiantfire in one of our showrooms. Then plan to order yours at once because the sale will definitely end on November 7.

*Price includes installation in fireplace on first floor or in basement. Slight additional charge for installing in other locations.
