## Chevrolet Announces Two New Lines for 1935

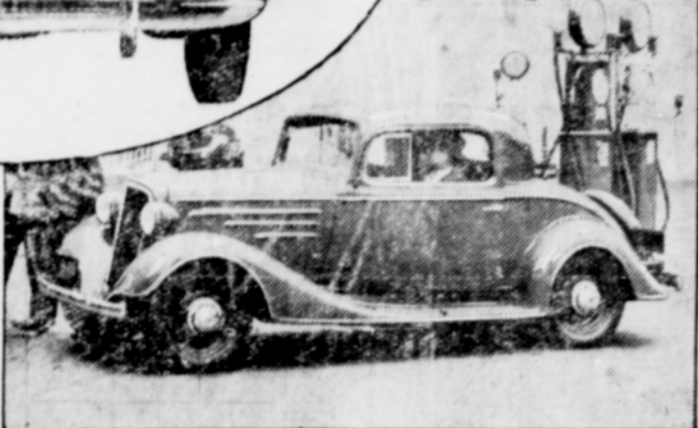

The Coupe model typifies the beauty and style of Chevrolet's new Master De Luxe series for 1935. Improved performance and exceptional economy also characterize these cars.

Fast, graceful lines also mark the new Master De Luxe Sport Sedan. Ample luggage space is provided by the built-in trunk, and a luggage compartment behind the rear seat cushion.

Right: Front view of New Master De Luxe Coupe, showing roominess and graceful lines. Below: The Sedan model in the New Standard series, which carries the time-proven Master engine, combines brilliant performance with its smartness and style.

Typical of Chevrolet's two new lines of cars are the models illustrated here. The Master De Luxe series reveals strong emphasis on beauty and style. Mechanically, the Master De Luxe series and the New Standard series have much in common, including the Master engine, in which numerous refinements have been made to enhance performance, durability and economy. As these pictures reveal, the New Master De Luxe departs distinctly from previous Chevrolets in the striking advance which has been made in body design and trim.

### OUT BEYOND EARTH

Is there a loud speaker in heaven? Do mystic spiritual waves carry our praise, petitions and prayers up and up to where gather the myriads of angels along with the General Assembly and Church of the First-Born which are written in heaven? Do they?

And as the hosts gathered there hear your joy-note rise from out the fog, wrangle, distress and death that blankets earth, do they break forth and join their psalm with yours? A mighty volume for the great God who is the one and only potentate, the Lord of Lords and

King of Kings, who only hath immortality, dwelling in light which no man can approach unto; whom no man hath seen nor can see.

And ages from now after this mote of dust called earthly has melted away, we still see the mark that sin had made down here; the nail-prints in Christ's hands. They tell the price He paid on the old rugged cross to redeem man from God's just wrath at their wilfulness and sin. Yes the nail-prints are there for all the eternities to come and so are you. For man's spirit lives on and on, either with the saved ones or with the lost.

And for the saved, in the ages to come God is pledged to show the exceeding richness of his love-power in his kindness to us through Christ Jesus.

(This is written for a certain friend who is under an incurable disease and is longing to depart and be with her Lord.)—George N. Taylor, Beaverton, Oregon.—Pd. ad.

### Capitol News Letter

(Continued from page one)  
five, copies of which were released this week.

Stadelman points out that out of 24 preliminary petitions filed with his department only four were completed. All of these petitions involved additional labor and expense in the state department, which Stadelman believes should be paid by the sponsors of the initiative measures.

The retiring secretary of state also recommended a careful study of the present method of nominating independent candidates by assemblies of 100 voters, which has been subjected to considerable abuse in recent elections.

Other recommendations contained in Stadelman's report include strengthening of the gasoline refund law and heavy penalties for those who attempt to secure refunds through fraudulent means.

Revision of the taxing law to include all so-called self-suspending boards and commissions, and the placing of all state activities under legislative control by diverting all fees into the general fund.

"There ought to be a law" requiring the legislature to bury all dead statutes so deep that some industrious individual can not dig them up and get every one all hot and bothered. Witness the "discovery" made by the Hood River county official this week of an old statute which provides that county officials do not take office until July. The difficulty here, apparently, lay in the fact that the official in question dug extremely too deep in his quest for information. The ancient statute which he unearthed was passed in 1864. Then along in June, 1908, the voters of Oregon amended the state constitution shifting the date for the general election from June to January and at the same time providing that all elective officials, except the governor, should assume the duties of their respective offices on the first Monday in January following their election.

State officials were inclined to view the controversy which has been stirred up by the discovery of the old law as just another case of much ado about nothing.

The legal profession will have the largest representation in the new legislature which convenes here next Monday. Twenty-seven of the 90 members are attorneys. Farmers are next in numerical strength with 23 of their number on the legislative roster including dairymen and hoggrowers. There are 14 business men of various lines, three physicians, two newspaper editors, two educators, two bankers, three insurance men, two salesmen, a carpenter, safety engineer, an auctioneer, fruit dryer, housewife, com-
