Hilhi Hoopsters Meet Beaverton Here on Friday

Inspired by a 24 to 15 victory over Tigard Friday in the opening game of the county schedule, Hilhi hoopsters are preparing for two tough games against Beaverton and St. Helens during the coming week.

Locals are still bothered with a bad case of "missitus" on both field goals and foul shots but show promise of snapping out of the doldrums at any time. Ability to locate the basket, coupled with the excellent checking work of the squad would put Hilhi definitely in the running.

Patterson, local forward, went on a scoring spree in the final half of the game against Tigard, scoring 10 points during the period to bring the Blue and White team behind to win 24 to 15. The game was rough from start to finish with a total of 25 fouls being called.

Hilhi scored three points in the opening minutes of the game but Tigard offset the advantage shortly, leading 5 to 3 at the quarter and 8 to 7 at the half. The locals pulled into the lead once during the period but it was not until the final half that they took a commanding lead to insure victory. Hilhi scored 17 points to 7 for Tigard in the last half.

Patterson was high point man of the game with 13. Cook of Hilhi and Hughes, Tigard guard, were second with six counters each. Despite the numerous fouls, neither squad was able to capitalize on free shots. Hilhi connected with two out of 11 and Tigard five out of 14.

Hilhi B. squad lost to the Tigard B's 26 to 32 in another rough game. Nedry of Tigard was high point man with 10 points.

Beaverton high school defeated the Forest Grove squad 27 to 25 Friday in an overtime game. Hilhi defeated Gaston 30 to 8 on the local court Tuesday evening while the second team defeated the Gaston B team 29 to 10. Cox, Hilhi forward, was high man in the first team game with 11 points.

Hilhi led by a narrow margin of 5 to 4 at the end of the first quarter, but moved out in the second period to dominate the game.

Syndicalism Law Seen as Real Need

(Continued from page one) cate lining up the bosses against the wall and of taking over all property and factories.

Removal of much of the teeth from the criminal syndicalism law two years ago had an immediate effect in increased communist party activity, declared Morgan, who held that the act should be maintained and strengthened.

The district attorney said that the organization here last summer of the good citizenship interested in law and order had a material effect in maintaining law and order.

He pointed out many new groups were being formed and that while their present course was satisfactory now he hoped they might not later prove fertile ground for the spreading of communist poison.

He declared that there was no doubt but that the communists were back of all the late strikes in their effort to spread discord.

Speaking of his office Morgan compared the cost for the years 1933 and 1934 as \$2500 or 45 per cent of the \$5500 for 1931 and 1932. He did not know what it was attributable to, but there is less imprisonment in Oregon now and less crime in this county.

E. B. MacNaughton, president of the First National Bank of Portland, will speak here today (Thursday) noon. He has recently returned from the east and will probably discuss economic trends.

Wrestling Arena Dark on Friday

No wrestling bouts will be held at the V. F. W. hall this Friday night, according to Ray Dillon, local matchmaker. The next matches will be a week from Friday.

George Backley, North Dakota "Tiger" turned the tables on the popular Jolo Howland of Hollywood Friday night in the main event of the V. F. W. wrestling card here, taking two out of three falls. Backley won the opening fall in 14 minutes with a series of hammer locks and then Howland evened the score 7 1/2 minutes later with a double toe hold. The "Tiger" took the final fall in 5 1/2 minutes with a body press after flooring the Hollywood boy with a vicious blow to the stomach.

Persistent slugging, hair-pulling and kicking resulted in the disqualification of Art Perkins of Detroit in his semi-final match against Sammy George of Chicago. Perkins won the first fall with a pin hold in 12 minutes and then George brought the Detroit grappler's attention to the mat with a crucifix hold nine minutes later. The final session was rough and vicious with Perkins being disqualified for continued illegal tactics.

Charles Traber and Wayne Rash, both of Hillsboro, put on a good wrestling exhibition in the curtain raiser, going 15 minutes to a draw.

It looks like a school room, and were it not for the expense to the taxpayers, we would insist that every member be supplied with an old-time school room slate, slate pencil and sponge, for he has everything else on his desk even down to a silver mounted dagger to open his mail from his infuriated constituency. Upon each desk are law books enough to open a super-market.

Babson Takes Rap at Plans

Townsend Plan Inflationary Declares Economist

(Continued from page one) be more goods to divide? We get richer only as we produce and save more. Young people now out of work could not replace the ability and training of those over sixty, who are still producing. The burden of those now trying to earn their way and raise families would be multiplied. The Townsend plan is really a scheme to tax those under sixty to support those over sixty who have failed or refused to be thrifty. It entirely ignores the importance of saving as a means of creating capital. Yet most of the blessings which everyone has today are due to the thrift and "saving for old age" of our ancestors.

I also feel that Dr. Townsend's plan, from the moral angle, is dangerous and undermining to character. Naturally, I believe that the aged in distress should be given aid and protection. To support the aging father and mother, however, is one of the sacred duties and obligations of family life. Basically, Dr. Townsend's plan takes no recognition of integrity, courage, and ability. It is simply another of those social panaceas which encourage shiftlessness and carelessness and which penalize industry and thrift. Industry and thrift are the basis of civilization. If we remove the incentive to work and save, we are undermining the nation.

City Requests Use Old House Numbers

That house numbers recently installed in Hillsboro are not to be used in mailing addresses until notice to do so is given by the city was the statement this week of George McGee, city manager. Considerable confusion has resulted at the postoffice, due to the fact that a number of local residents have been using the new numbers before proper street signs have been installed.

New numbers have been put up in all parts of the city. Street signs arrived Monday and will be in place soon. A city directory is also being prepared in connection with the project. Labor is being supplied by the SERA.
