**CAR POTENT KILLER**

A car going 40 miles per hour is four times as capable of inflicting damage as at 20 miles, and when going 60 miles per hour, it is nine times as capable of inflicting damage, according to the Oregon State Motor association, sponsor of the "Let's Quit Killing" safety campaign. Automobiles traveling at 20, 40 and 60 miles per hour have the same capacity for inflicting damage that the same cars would have if driven off a one, four and ten or twelve-story building.

## THE RECIPE For SUCCESS

2 cups of determination  
4 teaspoons of common sense  
3/4 cup of regular deposits  
1/2 teaspoon foresight  
1 tablespoon interest powder

Mix and sift the first three ingredients to remove all particles of procrastination and indifference.

Then stir them together in a compound interest account at this bank, and keep adding deposits regularly. The interest powder will cause the dough to expand to very pleasing proportions.

It makes a delicious dish that may be served on many different occasions, especially after salaries are no longer in season.
