STORE

For the convenience and safety of car Dealers are also equipped with complete to power lubrication and crank case service.

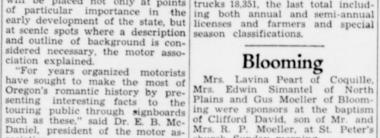

- Recent tests by a leading University show that Firestone High Speed Non-Skid Tires stop a car 15% quicker than any other of the leading makes.

For eight consecutive years Firestone Tires have been on the winning car in the dangerous Pike's Peak Race where a skid means death.

"Are they blowout-proof?"

-Firestone Gum-Dipped Tires have the most amazing records for being blowout-proof of any tires ever built. In the gruelling 500-Mile Race at Indianapolis, May 30th, every one of the 33 cars was equipped with Firestone Gum-Dipped Tires. Not one of the 33 drivers had tire trouble of any kind.

Ab Jenkins drove his 5,000 pound car on Firestone Gum-Dipped Tires over the hot salt beds of Utah, 3,000 miles, averaging 127.2 miles per hour, with temperatures as high as 120°, without tire trouble of any kind. 3 "Without sacrificing these two important safety features will they give me longer mileage, thus making them the most economical tires I can buy?

REDUCING SAFELY

(By Oregon State Board of Health) While the general craze for reducing seems to have waned it is still much in evidence among many individuals. If you are overweight or for any reason find it desirable bealthy procedure Find your normal or for any reason find it desirable or for any reason find it desirable to get rid of a few excess pounds don't prescribe for yourself. Above all don't take anti-fat drugs no matter how extensively they may be exploited. The fanatical desire on the part of adults to attain sylph-like figures of youth has led many into beds of illness and some sylph-like figures of youth has led many into beds of illness and some directly and indirectly into pre-mature graves. As a matter of fact the majority of persons harboring a slenderization complex are little overweight. This frequently results, no matter what reduction method is used, in an under par condition. trimm Friendly advice is often risky. This belts. fact was never more emphasized than in the present use of dinitrophenol as a reduction agent.

the tivity of certain body cells, and while its use is sometimes indi-cated in the treatment of conditions where it is desired to increase the metabolism rate in the body, nevertheless the toxic danger and limitation must definitely make this drug anything but safe in the of amateurs. In fact, from hands a professional standpoint, it is yet to be conclusively demonstrated that its use in treating obesity is as safe and satisfactory as other methods in common use. The re port of the death of a physician from an overdose of the drug which was being used for weight reduction is most significant and should be taken as a warning of the danger involved.

It will be natural, as a result It will be natural, as a result of the enthusiasm for the athletic figure, for proprietary patent medi-cines containing this drug to be placed on the market. Such prod-ucts, if providing sufficient di-nitrophenol actually to reduce weight, would be hazardous in the

OF BLOWOUTS

Firestone removes the danger of blowouts by preventing their main cause-internal friction and heat. This is accomplished by Gum-Dipping.

THERE ARE THREE QUESTIONS AND ANSWERS THAT WILL SOLVE YOUR PROBLEM OF WHAT TIRES TO BUY:

"Will the tread give me the greatest traction and protection against skidding?"

- Firestone High Speed Tires not only give you more than 50% longer wear, but also lowest cost per mile. In fact, unequaled mileage records of thousands wear and greater economy of Firestone High Speed Tires.

Equip your car with a set of Firestone Gum-Dipped Non-Skid Tires, the safest tires ever built and avoid the dangers of skidding and blowouts.
