*A good cigarette, too
needs Balance—*

And that's why the tobaccos in Chesterfield are carefully balanced one against the other . . . not too much of one—not too little of another.

We take the right amounts of the right kinds of four types of tobacco—Bright, Burley, Maryland and Turkish.

It is this balancing of tobaccos that makes Chesterfields milder and makes them taste better.

You can drive it 50 miles an hour the day you buy it

THE FORD V-8 is ready for normal driving when you buy it. There is no tedious period of breaking-in for 500 or 1000 miles. You can drive it up to 50 miles an hour the first day. And after the first hundred miles you can drive it as fast as you desire.

That means greater motoring enjoyment for every motorist. It is especially important to motorists who are thinking about a new car for a vacation trip— to physicians, salesmen and all those who use a car for business. Instead of dragging along at slow speeds for days, you can make good time from the start.

The reason for this is as important as the result. The Ford V-8 needs no breaking-in because of unusual accuracy in the manufacture of moving parts and the smoothness of bearing surfaces. Clearances are correct when you buy the car. It is not necessary to depend on a long wearing-in period to eliminate tightness and insure smooth running. Longer life, greater economy and better performance are bound to result from such precision methods. The Ford V-8 gives you fine-car construction, along with fine-car performance, comfort, safety and beauty.

FORD V-8

We desire publicly to express our appreciation for the many fine expressions for our success in our new location, and for the fine attendance at our opening. We only hope you enjoyed it half as much as we enjoyed having you.

We extend to everyone a cordial invitation to make our new place your headquarters.

The FORD CORNER is the brightest corner in town.
