Horse Show and Rodeo To Head Entertainment at Exposition

Here are illustrated jumping and bullroking, two of the most fascinating events of the Indoor Horse Show and Rodeo.

This year the Pacific International Livestock Exposition celebrates its Silver Anniversary, October 5 to 12 in Portland, Oregon. Heading a large and varied program of entertainment will be that ever popular combined Horse Show and Rodeo. Spectacular and thrilling events have been scheduled with liberal cash awards for winners.

The Rodeo will be the final of all western shows this year at which the grand champion cowboys will be chosen. Only the best of America's cowpunchers and buckaroos will be seen in action. Events will include bronc riding, bareback riding, bull dogging and Brahma steer riding with cash awards of approximately \$5000 for winners.

Veteran arena directors will have charge of events, assuring a fast moving program at all performances. Plenty of action is promised with accompanying spills and thrills.

Homor Holcombe, World famous clown, will again add his thrills, daring acts and inject into the Show these extremely delightful and humorous scenes so well liked by both youngsters and grown-ups.

Exposition officials predict that this year will see the breaking of all recent records for entries and attendance.

Industrial exhibits are expected to exceed in size all previous years. Included will be dairy products, land produce, wild life, fish and game, wool and mohair, and many others.

In addition, there will be nineteen complete shows staged under the mammoth eleven acre Exposition building roof. These will include dairy cattle, beef, swine, fat stock, draft horses, sheep, goats, dogs, poultry and pet stock, 4-H Club and Smith-Hughes vocational exhibits.

Webster Address Seems Appropriate
The following quotation from a talk by Daniel Webster in the United States Senate on March 12, 1835, is considered appropriate to the present day by Edward Schumacher, who turned in the article: "There are persons who constantly clamor. They complain of oppression, speculation and pernicious influence of accumulated wealth. They cry out loudly against all banks and corporations, and all means by which small capitalists become united in order to produce important and beneficial results. They carry on mad hostility against all established institutions. They would choke the fountain of industry and dry all streams. In a country of unbounded liberty, they clamor against oppression. In a country of perfect equality, they would move heaven and earth against privilege and monopoly. In a country where property is more evenly divided than anywhere else, they rend the air shouting agrarian doctrine. In a country where wages of labor are high beyond parallel, they would teach the laborer he is but an oppressed slave. "Sir, what can such men want? What do they mean? They can do nothing, sir, but to enjoy the fruits of other men's labor. They can mean nothing but disaster."
