Says of Him:

Carney to Talk Before

Responsibility on Operators

Permits Must be Obtained Prior to May 15

A definite policy covering the be general observance of the forest code by the various operators by getting in touch with either the throughout the state has been district warden, Cecil H. Kyle, or adopted by the board of forestry, George E. Upton, inspector, according to an announcement made recently by Cecil H. Kyle, district warden of the Northwest Oregon Fire Patrol association. This policy places responsibility of apard reduction, the operator will be expected to carry out all these provisions prior to May 15 withplying for operators' permits as well as providing the necesary

Since the forest code has been effective for a number of years, and a special effort has been all equipment will be carried of of the past to inform the operators the fire season. cially the operators' permit law, it is felt that the industry should be sufficiently familiar with all code provisions to take all action ecessary without waiting for the first inspection by an official of the state forester's office.

Applications for operators' per mits must be made prior to May 15, the beginning of the closed season, and failure to made such
