Trio Captured After Jail Break Tuesday

(Continued from page 1)
man at a farm house and explained that his car had broken down and succeeded in getting the youth to take him into Portland.

In Portland he hired a man that he knew to take him to the Edmund woman, offering to pay him \$6. However, on their arrival he explained that he did not have the \$6 and offered the pistol as security.

Immediately following the escape, Portland police began a search for the woman who visited the jail, with the result that the pair was traced to the house at Sandy, where the woman was made at midnight Wednesday by Deputies Dick Bush and Harry Johnson, assisted by Portland police.

Judge Peters Tuesday morning in circuit court, heard pleas from three prisoners allegedly connected with the escape—Charles Dotson changed his plea of not guilty to pleading bad checks to guilty and in addition pleaded guilty to breaking jail and not guilty to aiding in the escape of L. H. Stairer, a fellow prisoner. Sentence was set for 3 p. m. Friday.

Annett Edmund, indicted by the grand jury Saturday for assisting in the break and for perjury, plead not guilty to both charges. Trial was set for August 31.

Daniel Gault, 23, alleged companion of Mrs. Edmund, pleaded guilty to a charge of assisting Dotson to escape. His sentence also was set for some future date.

Stairer still is at large and police bulletins and pictures have been dispatched to various points in an attempt to accomplish his re-arrest. Sheriff Connell said, as he was without funds, it is expected that police of this state, or bordering states, will pick up his trail within a short time.

Deputy Dick Bush, who stumbled over rubbish as he ran across the back yard of the house where Dotson and the woman were hiding, is recovering from injuries to his chest and chin resulting from the fall.

Gault and Mrs. Edmund are residents, or have been, of this county. Mrs. Gault and Mrs. Edmund's family residing on the east side of the county.

Saturday the grand jury brought indictments against Dotson, Gault and the Edmund woman. Two against Dotson, charge escape from jail and aiding a prisoner to escape; Gault for aiding a prisoner to escape; and Mrs. Edmund for perjury and aiding in the escape.

Typical Scenes in Bloody, Revolt-Torn Spain

These pictures are characteristic of scenes in almost any Spanish town or city as Fascist revolutionaries push their drive to overthrow Spain's leftist Popular Front government. The top photo shows workers, armed by the government, leaving Madrid in trucks to meet the advancing rebels. Lower left, Communists give their salute after firing a church which they claimed hid rebel snipers. Lower right, a young American refugee and her daughter disembark at Bayonn, France, after fleeing the fury that reigns over all Spain.

Legion Delegates Go to Convention

is understood, but should it take first place, competition next year will be for the right to represent the state in the national contest. The quartet, it is understood, will have no competition this year, no other auxiliary unit having entered.

Big feature of the convention this year will be the struggle between the El Ray Roofers of Portland, state champion junior league team, and the Seattle Juniors. The winner will represent this district in the regional contests at Bismark, N. D.

HOT BREADS IN SUMMER TIME

Hot weather does not as a rule destroy the appetite for hot breads. Although a hot oven is hard on the cook when the weather is also hot, the oven heated for other purposes may as well be utilized for bread too. With a gas oven that heats quickly or with an electric or any other insulated oven, the ten or twenty minutes needed to bake biscuits, rolls or muffins does not count heavily against the attractiveness of hot bread with the cold plate luncheon, for example.

And bread which is always one of the chief energy foods may very well be the one food in that class on a summer menu. Served with a large vegetable salad or an extra green vegetable or fruit, in place of the starchy vegetable, bread mixed and baked for the occasion, may easily be used to round out the nutritive content of the meal.

Rolls or biscuits are always made with milk—sweet milk, sour milk or buttermilk. Muffins and other breads as a rule contain both milk and eggs, furnishing these additional food values. A meal then, furnishing hot breads, fresh fruits and vegetables, meat or meat substitute, and milk has all the kinds of foods we need.

There are two main classes of bread . . . the yeast breads and quick breads. Yeast breads take longer to rise; quick breads are so called because they rise at once. Despite the slow rising of yeast breads there is a way to provide hot rolls at any meal without much trouble, and only 15 or 20 minutes in the oven. A recipe for these popular refrigerator rolls is given below.

Refrigerator Rolls
1 cake compressed yeast
1/2 cup butter
1/2 cup sugar
1 egg, beaten
8 cups soft-wheat flour
1 1/2 teaspoon salt
2 cups milk.

Soften the yeast in 1/4 cup of lukewarm water. Add the butter and sugar to the scalded milk, then

cool and add these to the beaten egg. Combine with the yeast and water. Stir in the flour and salt until the dough is stiff enough to knead. Turn on a floured board and knead from 10 to 15 minutes or until the dough is smooth and elastic. Put the dough in a greased bowl, grease the surface of the dough and keep in a warm place until doubled in bulk. Turn out on to the board, knead, grease the surface of the dough again, cover and put in refrigerator.

Next day, when ready to use the rolls, cut off the amount of dough required, shape it into rolls in the looking pan, put them in a warm place and let them rise to double their bulk. Then bake from 15 to 20 minutes in a hot oven. The remaining dough will keep in the refrigerator for 3 or 4 days, or even a week. Less sugar may be used, but the dough loses sweetness when kept over.

ON CAME A SINNER

Half an hour before the service on this July night, came a tall sort of man of about thirty-five into the Mission here, coatless and hatless. "Is there to be a service?"

"We specialize in quality commercial printing—Argus."

There had been prayer that God would produce a sinner. It was a reasonable prayer to make. For—Would a man go into a grocery store if he never had hunger? Would a sick man ever seek out a doctor, if made to believe he had no disease? Would a sinner seek the Lord if blinded to his lost estate? So? prayer had been made that the Lord would produce a sinner out of the vast throng of self-righteous that fill the city.

Now comes in this man and sits himself down to wait for the meeting to begin. The service went its usual course and at the invitation at the close, the man rose up and made for the front almost on a run. He knelt down and began to pray. Let one who stood by tell us—I never saw a man pray so hard in all my life. One and another came up to speak to him, but the man kept on praying. They asked him if he didn't want coffee and donuts. He said he hadn't come in for such as that. He came in to get saved. Then something happened deep down inside and he broke into thanksgiving and praise. It's the old-old story and yet it is ever new. Somehow, the great God had come into the Mission hall and kissed one of his creatures into God-life and eternal life.

Now look behind the scenes just

a bit. This man had been high-balling Jesus Christ all these years. When your Maker tells you, his Holy Spirit speaking to your spirit, you are ready to act—"Just as I am and waiting not, to rid my soul of one dark blot; to Thee whose blood can cleanse each spot, O Lamb of God I come."—George N.
