Mrs. Francis Made Honorary Member of Club

(By Mrs. Mable Allison)
MOUNTAIN HOME—A committee from the six Sunday schools in this locality have made plans to have the annual Sunday school picnic on Labor Day. More details as to place and program will be given later.

The Workers' Conference, consisting of Sunday school superintendents from the various Sunday schools, have made plans for a combined teachers' training class to be taught by Rev. V. T. Speece and Dr. A. S. Hisey. A meeting of the conference, to which the public is cordially invited, will be held at the Schools church September 13. Plans of the conference will be given at that time and opportunity given all those interested to enroll in the class.

Men of the Double Trees held George Kirkpatrick shingle his new house last week.

The Chelholm Mountain Potato club met at the Allison home Friday evening. Plans for a potato field inspecting tour were made. This will take place Friday after the crops judging contest at Hillsboro. Mr. and Mrs. L. E. Francis, Hillsboro, were present and Mrs. Francis was made an honorary member of the club. Wild Wood Forestry club met in conjunction with the potato club Friday evening. Members reported on the condition of the trees which they planted last spring.

Miss Mary Schmetzer plans to leave Saturday morning for Crook county to teach a rural school. She will live in a teacherage, a house belonging to the school district, with another teacher.

The county court room at the court house at 8 o'clock for the purpose of organizing for the campaign. The meeting is being organized by the central committee at the request of the state committee chairman, Arthur W. Priaux.

Arrangements are in the hands of Donald T. Templeton, county chairman, J. O. Johnson, secretary, and John R. Wood, state committee man. All members of the various republican organizations in the county, as well as the committeemen have been requested to attend.

Plans for the campaign will be made at this time and various problems facing the local and state committees discussed, Templeton said. All republicans are urged to attend the meeting. Up-to-date, the campaign has shown small momentum on either side. However, street corners, luncheon tables, public gatherings disclose a number of heated arguments as to the merits of the two schools of political thought, and old time politicians are forecasting a good, old fashioned, well heated campaign for this fall.

Federal Housing Program Helped

of financing a home never was less expensive or less burdensome. "We have faith in this community and in the entire state of Oregon. This is substantially attested when The First National bank places at the disposal of potential home owners as many thousands of dollars as will be required to bring our housing situation back to normal." The banker said increasing rents are responsible in no small measure for the public's fast growing "home-mindedness." Apartments

throughout these communities were said to rarely exceed a five per cent vacancy, while 10 to 12 per cent vacancy is considered normal. It also was pointed out that few, if any, suitable modern single family dwellings are available within reach of the average family's budget.

"The fact that it is now cheaper to own a home than to pay rent should stimulate this 'Own Your Home' campaign here until we restore a condition of normalcy in our housing situation," he said. "In addition to making it possible for deserving families to have homes of their own by providing ample funds and easy financing, we hope also to provide employment for many craftsmen in the building trades. When we build payrolls we extend a helping hand to every retailer, dealer and industry in this community. That is the kind of service to which this bank is dedicated."

State Has Hearing Water Right Claims

(Continued from page 1)
The total number appeared in person to present claims. A number of the claims involve vested rights which date back to a period previous to 1909. For those water users who have not yet submitted proofs, evidence can be filed with the state office in Salem until September 9, the engineer pointed out. Time for opening proofs for inspection will be set after which any protests to claims may be offered. In event of protests being made, another hearing will be held for the presentation of testimony, and if the property owners after notification take exception to the official findings, a circuit court hearing will be held to make final disposition of the issues, the engineer said.

The program of the union, he declared, was endorsed and in part, promoted by Lemke and therefore the union realized where Lemke stood in the matter of the union.
