Record Crowds at Showing New Ford

More than 1200 persons visited the MacKenzie Motor company showrooms during the all-day showing of the new model Ford, H. L. MacKenzie, manager, reported this week. The showing was held Saturday.

During the evening the crowds increased, MacKenzie said. Special for the night showing, were lighted the showrooms with colored and high-powered spotlights. A powerful searchlight furnished by a Portland company also was used for sky lighting.

"The new Ford," MacKenzie said, "attracted wide interest among the visitors, and most of them were particularly interested in the new feature of two differently powered motors available."

The new Ford is a remarkable improvement over the old model. It has a new engine, new chassis, new body, and new wheels. It is a real masterpiece of engineering.

MacKenzie said that the new Ford is a real masterpiece of engineering. It has a new engine, new chassis, new body, and new wheels. It is a real masterpiece of engineering.
