Member Pioneer Family Succumbs

Howard Joseph Hughson, 65, born in Beaverton August 20, 1871, died at his home at Beaverton November 30, 1936. He was a member of one of the early pioneer families in Beaverton, and with the exception of five years residence in California and one year in California, lived his entire life in Beaverton. He was with the Southern Pacific company for 31 years.
October 1, 1903, he was married to Cathie M. Johnson, who with two children, Pearl McFarland of Tacoma, and Carl H. Hughson of Portland, survive him. He is also survived by two grandsons, Gordon and Charles Hughson of Portland; three sisters, Mrs. Nettie Livingood of Aloha, Mrs. Hattie Pitt and Mrs. Leah Johnson of Portland; three brothers, Walter Hughson of Carlton, George Hughson and Louis Hughson of Beaverton.
Mr. Hughson was a charter member of the Church of Christ of Beaverton, and at the time of his death was treasurer and a deacon of the church.
Funeral services were held at the church December 2, with Rev. Putman officiating. Pallbearers were Doy Gray, George Blasser, Francis Livermore, H. W. Rogers, Earl Hall and Charles Thompson. Interment was in Crescent Grove cemetery.

New Sticker to Welcome Visitors

Additional emphasis on Oregon's welcome to tourists is embodied in a new design windshield sticker to be issued out-of-state motorists by Earl Snell, secretary of state. The plan is a part of Snell's program to promote tourist travel in Oregon and the new permit with its slogan "Guest of Oregon" will be distributed the first of the year to all non-resident registrars.
The new sticker design was prepared by George Stephens, an employee of the secretary of state's office.
"During the past year the 51 non-resident bureau managers for this office have responded wholeheartedly to my request for their aid in making visitors to Oregon feel that they are welcome," the secretary of state reports. "Some very definite and valuable results have followed from this program. It is possible to add millions of dollars to the amount spent in Oregon by motor vehicle tourists by inducing them to prolong their stay even a single day, and nothing will get more tangible results along this line than to make them feel that they are truly guests of the state while here. This is a matter of interest to every one of us and especially effective work can be done by those who contact our visitors, such as garage and service station attendants, hotels and restaurants, clerks, and business men in many other lines. My department will co-operate in every possible manner to develop this program to the fullest extent."
Oregon's greatest tourist registration in history is being recorded this year, according to records compiled by Snell, and an even larger influx of visitors is expected during the coming year.
The home of Mr. and Mrs. Carter caught fire early Monday morning. Hillsboro fire department was called but neighbors had the fire under control before the fire department arrived. The fire started in the upper story and damaged it quite badly. Clothing and some furniture were burned.
Born to Mr. and Mrs. Louie Madden of Beaverton December 6 at Good Samaritan hospital, a boy, Mr. and Mrs. Madden formerly lived here.

He got "Relief" with a "Caterpillar"

"I see you have a room for rent. How much do you want for it, including the use of your piano?"
"I won't be able to tell you until after I hear you play."—Ex.
Ask your attorney to send you legal advertising to the Argus.

Gentlemen:
November 10, 1936
The satisfaction my "Caterpillar" has given me over any other way I have farmed, is hard to measure. Perhaps I should have used the word "relief" instead of "satisfaction" because the farm work in previous years was more or less a nightmare and caused me a lot of anxiety.
My land is quite flat and heavy. Our late springs and early falls sometimes make it necessary to do the work quickly when the opportunity presents itself. This kind of soil doesn't dry out evenly and the low spots which are a very small per cent of the total area, prohibit the use of wheel tractors until a large part has lost a lot of moisture. Horses are too slow. The "Caterpillar" has overcome this and the farm work now is the least of my troubles.
This tractor pulls a three-bottom plow at about the same fuel cost I had on the wheel tractors pulling two-bottom plows. In other words, it saves about one-third in fuel. It is eight years old and has cost about \$275 for repairs. I have recently overhauled it and should get a lot more service out of it with no expense. I can see very little wear on the tracks and they will last as long as the rest of the tractor, probably many years.
Yours truly,
W. M. HIGDON.
