Executives Make Proclamations

J. H. Garrett, Mayor of Hillsboro.

Along with the Chief Executive of our state I would urge you to set aside the week of March 14th to 20th—"National Business Women's Week"—to learn more of the Business and Professional Women's club activities.

It is NOT just another club but a group of women associated together for a very special purpose.

Only a few decades ago women had very little opportunity to make their influence manifest in a public way for the betterment of mankind. Their light was a reflected light. Today business and professional women have joined themselves together to raise the standards of women in public life and break down old prejudices regarding their sex. Our country is better for this influence.

J. H. GARRETT, Mayor of Hillsboro.
