overlapping of authority nor coordination of the departments in the exercise of the power granted to any one of them.

"As declared in the preamble, it was to 'establish justice,' for the people of the United States that the judicial department with the supreme court at its head, was created. It forms the balance wheel by which the affairs of the nation and its relation to the states are kept in working order, and it is self held in check by the power of the president to appoint its members as vacancies may occur, and by the power of congress to impeach its members for misconduct, the power to regulate its appellate jurisdiction and to increase or diminish its members.

Native Son Dies Portland Tuesday

Louis Edward Shute, 69, Washington county pioneer son, died in a Portland hospital Tuesday night. Funeral services will be held at Finlay's chapel at 2:30 p. m. today (Thursday) with Rev. Oswald M. Taylor of Grace Memorial church officiating. Commitment will be at Memorial Hall Mausoleum.

County Court Seeks New Superintendent

Change in the superintendent of the Washington county hospital was indicated Tuesday when Flora Hunter Knights, nurse, who has been in charge since last winter, tendered her resignation to the county court. Her successor has not yet been selected, according to Judge Donald T. Templeton.

Court Helpers

"If the constitution grants the power to legislate in a particular manner upon a particular subject, the supreme court is helpless so long as congress does not exceed the granted powers. The courts do not lie in wait for act of congress to strangle them at birth. They have no jurisdiction to pronounce any statute, either state or federal, void because irreconcilable with the constitution except after they are called to do so by the legal rights of litigants in actual controversy.

"The congress is in the first instance the judge of the constitutionality of its own acts and maneuvers and its members are familiar with the letter and spirit of the constitution, but in the heart of political

demands, and under the urge of supposed emergencies, such members are too likely to be swayed from studied and deliberate judgment upon constitutional questions.

"The supreme court has constantly felt that one branch of the government cannot encroach upon the domain of the other without danger and that the safety of our institutions depends in no small degree upon the strict observance of this rule.

Power Vital

"Possession by the court of these powers granted by the constitution is vital to the preservation, not merely of our form of government, but of the rights and liberties of the individual citizens.

"Notwithstanding the present attack upon the supreme court and the members thereof, there is one thing we all can do, and that is to encourage and exhibit the true spirit of temperate and patriotic consideration which is the primary requisite to success in working out all problems in self government.

"Free government makes no true progress in exhibition of violent temper, appeals to prejudice, or incitement to hatred. The appeal to prejudices and passions and hatred finds its natural sequence in appeals to force and in destruction of order."

territory, but some of it might have been.

In the case of cover crops the crop must have produced a satisfactory amount of green material. "In no case should payment be allowed for crops which have failed to the extent that there is no substantial amount of green material left to turn under. All green manure crops qualifying for payment must be inspected by community committee members or supervisors prior to being turned under," says the committee. Payments for plowing under cover crops will probably be made in fewer instances this year than in 1936 owing to the fact that a considerable percentage of our cover crops killed out during the winter. In many instances, however, there is still sufficient left to qualify the owner for a cover crop payment.

Rule on Lime

The state committee announced another ruling pertaining to lime which answers a question frequently asked at the community meetings held three weeks ago. Regarding the use of ground limestone or its equivalent the following ruling was made:

"Ground limestone or its equivalent, to be acceptable for payment, must contain at least 90 per cent calcium carbonate or its equivalent, excepting that in cases where materials of less calcium carbonate content are used proportionately more must be applied per acre."

These rulings clear up some of the questions that farmers were asking at the time meetings were held and are in conformity with good farm practice says County Agent W. F. Cyrus.

Logging Resumed Hayward District

(By Vivian Hudson)

HAYWARD—Loggers have resumed logging operations in the timber of the Kahler estate after a shut down of two months due to deep snow. They began trucking logs to Forest Grove last Thursday.

Mrs. G. A. Gheen underwent an operation at the Good Samaritan hospital in Portland March 3.

Mrs. Bertha Stegmann and daughter Miss Helen were in an auto wreck last Monday in Portland, both getting quite badly bruised and shaken up. Tuesday they attended the funeral of Mrs. Stegmann's sister, Mrs. Emma Grimm, of Aurora. Miss Helen has been in bed since they returned home Tuesday evening. Her head gives her considerable pain.

Fritz Stegmann and sons Walter and Carl are yarding out cedar poles and posts from the 40 acres of timber belonging to John Ardon, which they bought from Axel Pederson in February.

Mr. and Mrs. Willis Hiatt and Miss Ann Laermann of Forest Grove spent the week-end with the girl's mother, Mrs. Milda Laermann.
