Plans Progressing to Check Health Pre-School Child

Plans are now in progress for the summer round-up of pre-school children. This round-up is conducted by the Hillsboro Parent-Teacher association as one of its major projects.

In order to acquaint the mothers of these children with the work of the "summer round-up" committee a tea was given last Tuesday for the mothers.

After a thorough physical examination it is hoped that any corrections necessary will be made during the summer, and in the fall there will be a check-up to determine the condition of the children.

All the doctors and dentists of Hillsboro are co-operating fully with the committee and are giving their services for examination free of charge.

As a result of this "summer round-up" project more children are entering school every year as free as possible from defects and protected against disease.

Those serving on the "summer round-up" committee of the P. T. A. include Mesdames George Reule, chairman, Charles Douglass, H. Haley, Ben Faber, J. Searcy and H. Schindler.

WESTCO WATER SYSTEMS

Is your WELL TOO DEEP?

If your well is too deep for the average shallow-well electric pump—here's good news!

Westco Turbine Water Systems pump water from wells with water levels as low as 25 feet below the pump. Even if the water level in your well is usually around 22 or 24 feet—droughts, etc. may cause it to drop lower any time.

So, when you buy an electric pump, remember Westco pumps all the water you need from depths as great as 25 feet. There's only 1 moving part in a Westco. Think of it—no belts, no gears, no valves, no rods, no pistons, no springs. In fact, nothing to wear and get out of order. Owners swear by its "year in and year out" trouble-free operation.

Get FREE Folder—Come in and get your copy of Westco's FREE illustrated folder. It answers all questions about this extremely simple, trouble-free water system. See WESTCO at
