

Mrs. Guenther, Resident Here Lifetime, Dies

CHEHALEM MOUNTAIN—Mrs. Ernest Guenther, 43, died March 12 at Portland Sanitarium, where she was taken March 3 to be treated for heart trouble following an attack of influenza earlier in the winter.

Mable Larsen, daughter of Mr. and Mrs. L. K. Larsen, was born September 16, 1894, on Chehalis Mountain near Laurel. She was married to Ernest Guenther November 26, 1913. To this union were born two sons, Lynn and Lloyd, and two daughters, Ernestine and Helen Mae, all at home. Mrs. Guenther was a continuous resident of Chehalis Mountain.

She had always been a faithful worker in Sunday school and church. Before her last sickness she was teacher of the Junior Sunday school class at Mountain Top and organist for both Sunday school and church. She was also chairman of the extension unit of home economics at Laurel.

Mrs. Guenther is survived by her husband and four children, her mother, Mrs. Mary V. Larsen Neider, of Laurel; two brothers, Charles V. Larsen of Portland and Walter Larsen of Albany, and one sister, Mrs. Annes Watkins of Chehalis Mountain.

Funeral services were held at Mountain Top church Monday afternoon. William Morse, pastor of that church officiating. Interment was in Guenther cemetery on the south slope of Chehalis mountain.

Reedville P.-T. A. Sponsors Musical

REEDVILLE—A group of musicians from Portland will give a musical program Thursday evening at the Reedville church at 8:15. This is the regular March P.-T. A. meeting but the business part of the session will be attended to at a different time. No admittance charges. Come and enjoy the evening.

A good number gathered at the home of Mrs. Kelly Thursday to quilt, and as the quilt was not completed the ladies plan to quilt on it this week.

Young People's class of the Sunday school was entertained Friday evening by the teacher, Mrs. Nordlund, at the home of Mr. and Mrs. Glenn Stiff. The evening was spent playing games and contests, after which refreshments were served to the group of twenty who attended.

Mr. and Mrs. Thomas Parker Sr. and family spent Sunday with friends at Salem. Mrs. John Herring of Yamhill were week-end at the home of Mr. and Mrs. John Lee.

Mr. and Mrs. Ernest Hollier of Portland spent Saturday and Sunday with Mr. and Mrs. Ed Hooper. Mrs. Hooper returned home with them Sunday evening for a few days' visit.

Mr. and Mrs. Frost and daughter June visited their daughter and husband Mr. and Mrs. D. O. Prink, of Lake Grove Sunday.

Mr. and Mrs. Lloyd Ubanks of Kansas City, Kans. are here visiting Mr. and Mrs. I. L. Jacobson.

Claude Key and family moved from the Becker house into the house on the place which Glenn Stiff rents, farther north on Market road.

Mrs. Leo Morse and small daughter are home from the hospital in Hillsboro. The baby has been named Grace Louise.

Walter Schmitke and Florence Trachel were among those who attended the Baptist Young People's conference at Salt Creek Saturday night and Sunday.

The annual dinner given by the ladies of the Reedville church was a decided success. The dinner was given at Mrs. Olinger's store and the proceeds exceeded any dinners before given.

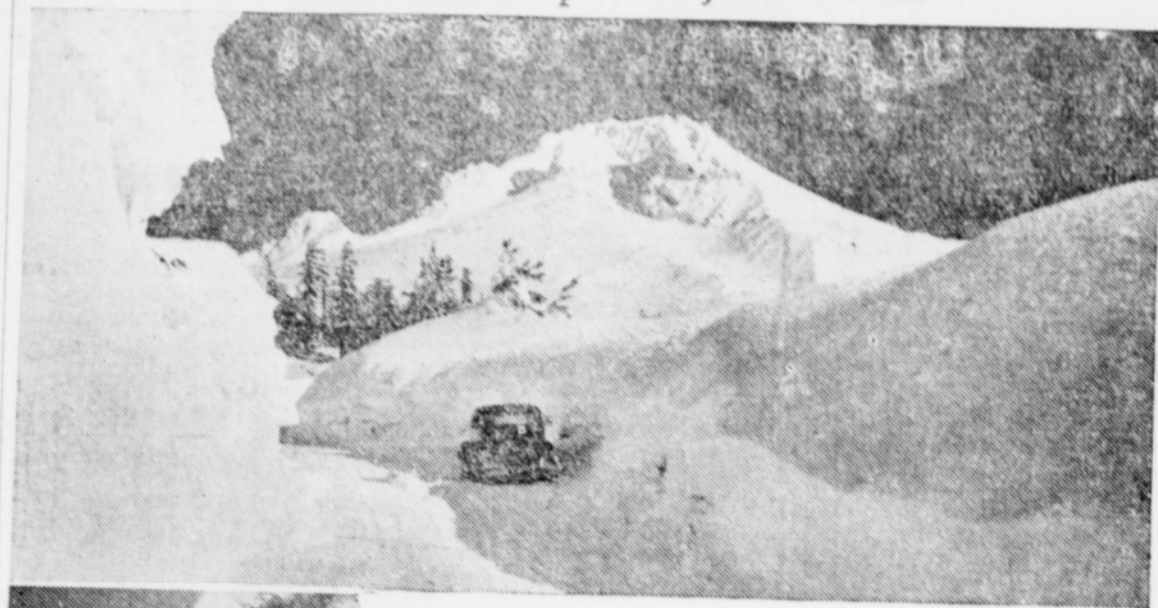

Thatcher

Mrs. Alice Buckley gave a quilting last Wednesday. Guests were Mesdames Rutan, Charles Sears, Oscar Love, Victor Griep, Sarah Haney, George Ford, Lou Wright, Ted Haney, Raymond Wood, Allen Hayden, Walter Willis, Rex Oberman and Will Haney.

Mrs. Alice Buckley was called to Sam Webb's of Cornelius to help Mrs. Webb care for her father, who was not expected to live.

Snow Plows Open Majestic Worlds

The state highway department's snow plows have been busy this winter keeping open highways that pass through heavy snow areas like the Wapinitia cut-off over the shoulder of Mt. Hood shown in the upper photograph. The smaller view shows one of the department's big rotary plows opening the Haines-Anthony highway in Eastern Oregon. Motorists who enjoy winter's artistry find beautiful week-end drives awaiting them in such areas as Mt. Hood, Crater Lake, Green Springs highway and other areas where snow-fall is heavy and remains for long periods.—(Photographs by Ralph Gifford, Oregon state highway department)

Vaccination of Children Urged

Due to an epidemic of smallpox started in Portland, and several cases in the surrounding communities, Dr. D. C. McDonald, county health officer, and Miss Clara Engbreten, county health nurse, are advocating vaccination to prevent an outbreak of this communicable disease here.

A program of immunization against diphtheria and smallpox is now under way in the local health unit. A toxoid and smallpox vaccination clinic will be held every Saturday from 9:30 to 11:30 a. m. in the health office at the court house. A 25 cent charge will be made for the smallpox vaccine and the toxoid to help defray expenses of the clinic. Any preschool, or school child, may come to the clinic, but must be accompanied by a parent or bring a slip giving permission for the immunization tests.

Smallpox and diphtheria are two communicable diseases that are absolutely preventable, Dr. McDonald points out.

"Only a few years ago typhoid fever and smallpox were among the major causes of death, today they are a rarity. Diphtheria now causes about half of the deaths it did 10 years ago. Our health departments stand between us and conditions that we hope will never return," said Dr. McDonald this week.

"A single smallpox successful vaccination will give a certain amount of protection throughout life. Every child should be vaccinated before one year old and again early in school life. When properly performed, vaccination is very simple and harmless. It is a good rule to be vaccinated every five years. If a

person is immune, the vaccination will not "take."

"Diphtheria is a dangerous disease and the cause of death in many children. No child need have diphtheria. A harmless treatment known as toxoid or toxin-antitoxin protects children against this dread-

ed disease. Toxoid or toxin-antitoxin has been given in thousands of cases with no ill effect. It is given to well children from six months of age up. Occasionally it is necessary to give it a second time to produce an immunity. Toxoid is given by a hypodermic injection and is given in one dose."
