Directors of the Dundee Nut Growers Co-operative are chuckling this week over what they claim is an April Fool day joke on business men of Woodburn. The business men there have purchased a site for a proposed nut cracking plant.

Last week the Woodburn Independent, newspaper published there, announced the removal of the North-Pacific Co-operative offices from Dundee to Woodburn and plans for construction of a nut cracking plant there to serve all the nut growers co-operatives of the valley.

Directors of the Dundee Co-operative explain that the North-Pacific is the sales co-operative for the nut growers cracking plants, and that a plant will not be constructed by them unless the growers' plants become so congested that the additional facilities are needed.

"April Fool to you, Woodburn!" exclaim the directors.

"Why do you suppose there are so many more accidents caused by autos than trains?"

"Well, maybe it's because the engineer doesn't try to kiss the fireman."—Ex.
