Labor Upsets Sister State

"California is completely crazy and Oregon is the only safe state on the Pacific coast," Ed Schulmerich declared yesterday (Wednesday) on his return from a 21-day trip to Placerville, his old home, Sacramento and other points in central California.

Schulmerich declared that the situation in California was critical, particularly as it relates to the fruit growers, who are being ground down through cannery and packing plant strikes.

Everywhere there, he said, you hear "crazy talk" about labor and strikes. He quotes one instance as an illustration of income among the workers. In this case, he said, the man and wife were earning \$17.50 a day packing fruit and were among those who struck for higher wages.

"I certainly feel sorry for my old schoolmates at Placerville, who are in the fruit business. I talked, also with lots of businessmen and bankers, and they reflect the same feeling of unrest and fear of the future."

"While I was in Sacramento, I attended a session of the state senate. They're a crazy bunch, too. All of them seem to have their fingers in the pot trying to grab something. I never saw anything like it."

He was accompanied on the trip by Mrs. Schulmerich.

Break in Feed Main Baffles Water Crew

Three-day battle with a leaking watermain near Cornelius, which cut Hillsboro from its water supply for many hours during the last four days, seemed to end yesterday, according to the Peoples Water & Gas company.

The leak happened when changes were made in the feed line to siphon the water under a culvert site being established with the reconstruction of the highway between Hillsboro and Forest Grove.

After the changes were made, the joints failed to hold. Tuesday night a crew was brought in from Vancouver to relieve the tired crew from Hillsboro, which had been battling without sleep to keep water flowing to the city.

With the exception of Sunday afternoon, water was allowed to flow through the mains during the daytime.

Damage by Dogs to Invoke Ordinance

Dog owners are going to be made responsible for irresponsible dogs, the city council agreed as a meeting Tuesday night.

"The dog situation in Hillsboro," said O. O. Freeman, chief of police, "needs something done to it, and the council agreed."

A diligent search of the records revealed that the owner of any dog is responsible for damages by the animal to any property, garden or flowers. This portion of the ordinance is to be enforced, Mayor J. H. Garrett declared.

Meanwhile Chief Freeman is out to catch any dogs running at large and complaints involving damages should be taken care of under the ordinance, it is pointed out. Cooperation of the citizens is asked.

State to Aid on Gales Highway

Although the Washington county court failed in its request that Gales Creek road be made a secondary highway and taken over by the state, the highway commission Tuesday agreed to take over maintenance of the road from the east city limits of Forest Grove to Balm Grove on Gales creek.

The remainder of the road from Balm Grove to the county line near Sunset camp, will still be the responsibility of the county. The members of the court attended sessions of the commission in Portland Tuesday and Wednesday.

Because the Gales Creek road from Balm Grove north is a part of the Wilson river highway and technically under construction, the commission ruled the state funds could not be used.

County commissioners declared that the county would no longer keep the road in condition with the heavy traffic to come from the Wilson river and Wolf creek roads.

IN DANIEL'S SHOES

Sometimes I wish that a PERSON might step in to where I am. Yes, that ONE PERSON and His glory shaded somehow so that my poor human eyes would look His way, and that He would speak to me in a voice, just as we talk to one another.

And that He would say I had taken Daniel's place as much loved of God—For you remember how of

old, the heavenly messenger came to that fearless man and told him he was beloved of God. So Daniel's players took hold up there.

But such a moment as that would not be in this day of the Christian, for we this side of the Cross walk by faith and not by sight. Instead of a heavenly visitor, we have the Book. God bids us search out its promises and lay them before him. Do our knees still shake? A's we still worried and peevish and discouraged? Then we lack faith in the willingness and ability of God to do what He has promised. You need a faith that will triumph over the circumstances of time and place. And here is your prescription—Get the Book out again and again. Make it Bible, Bible, Bible, from now on. Let that favorite idiom that the world offers go by the board. Back track through the years to

that mountain-top hour that you had with your Lord when you were new in the faith. Read and meditate and again tell yourself how from now on you will take seconds and that the Christ who bought you shall have first place. Only so will you break off the shackles riveted on by this present swift, shallow, fitful day.

Get out the Book then and read and meditate. —"Faith cometh by hearing, and hearing by the Word of God." Romans 10:17. The Old Testament prophet said it this way —"Thou wilt keep him in perfect peace, whose mind is stayed on Thee; for he trusteth in Thee." Isa. 26:3.—George N. Taylor, Beaverton, paid adv.
