Proverbs are often misquoted and as often only half quoted. Take this one for sample: "The world owes me a living." The other part of it is: "And I owe the world service."

A joint grand opening of both leagues is planned for the first game under the lights.

Flood Control Group Named

Steps toward a flood control program in this county were taken Wednesday at the meeting of the Pomona Grange in Buxton. A committee including Dan Burkhalter, W. A. Root and John Schmetzler was appointed to meet with a similar committee from the Farmers' Union and the county court.

W. F. Cyrus, county agent, discussed 4-H club scholarships and said that eight of the county Granges were making awards this year. He also talked on rodent control and told the Grangers that the county led the state in cow testing.

O. T. McWhorter, Corvallis, gave statistics on the decrease in the use of apples and said that this was due to substitution of citrus fruits from California and Florida, made possible by advertising campaigns.

J. J. Hamaker, associate secretary of the national council for prevention of war, spoke on peace, and R. G. Scott of the county fair board announced that the county fair would be the first week in September.

James Welch of Aloha was elected alternate delegate to the state Grange convention. The next Pomona meeting will be in Beaverton in July. About 150 were in attendance Wednesday.

TO MARKET TO MARKET TO BUY A FINE CHEESE Oregon is recognized as a dairying state, and unquestionably ranks high in the production of cheese.

Cheese is made from whole milk and has all of the desirable qualities found in milk. It contains muscle-building material - protein - of a quality particularly suited to the best growth of children.

When a shopper goes into a grocery store and orders some cheese and doesn't indicate any special requirements, the clerk will probably give him a piece of Swiss cheese.

North Plains Has Hot Nine; Play Sunday

When North Plains meets Aloha there next Sunday to open the 1937 season, the fans will see a completely revamped baseball squad as many of last year's players have moved over to other teams more to their liking. One of the hardest losses being Lund, last season's pitcher, who is the property of the Cincinnati Reds. At present he is farmed out in the Arizona league.

Fortunately the club has been able to present a formidable array of players who are mostly from Washington county. It has been necessary to plug a few holes with out-of-county players due to the ratings of the league and the number of clubs.

Probable Lineup Probable lineup for Sunday's game includes Turginski at third; Seger, the starting pitcher; Jimmie Grogan at first base; Jim Concanon, who was all star second baseman for the Portland high schools for two years will be at the keystone bag.

Pete Zimmerman will be in the middle of the outer gardens, flanked by Holcomb in right and Bill Cannon in left.

Darey will be back behind the plate with Heinie Zimmerman on the hill.

The infield utility duties will fall to Jay Hollingsworth and Robert VanLo.

The acquisition of Jack Donahue, who played first base for Hillsboro last year, should bolster the reserve strength.

The club and management wish to thank the local and county business men who have made it possible for the team to obtain new suits this season.

There will be a loud speaker on the grounds for the opening game with Carlton May 9 and the presence of the fans to give the boys a good send-off will be graciously appreciated.

kind, what he gets is cheddar cheese. As everyone knows, popular taste on this side of the Atlantic runs to the mild rather than to the sharp cheeses. In 1935, in this country, the production of cheddar cheese amounted to three times the total of all other cheese types combined.

The second most popular cheese in these United States, if popularity is to be measured in production, is Swiss cheese. The eyes in Swiss cheese are what determine its grade and hence its price, for to a large extent they indicate the flavor.

They should be neither too large nor too small, uniform in size and appearance, and evenly distributed. Cream cheese comes third in American production. Genuine cream thickened by souring or by the addition of rennet.

And brick cheese ranks fourth. Where it got the name nobody knows. It is made from the whole milk and has a strong sweetish flavor about half way between the Limburg and Swiss cheeses. It has many small round eyes - quite different from those of Swiss cheese. Its texture is elastic.

Serve the meal with bread and vegetable such as tomatoes, lettuce or spinach, and fruit as the dessert.

Remove from stove and add to beaten egg yolks, blending thoroughly. Cool. Beat egg whites until stiff and fold lightly into the cheese sauce.
