Public Notices

• As in the other new Internationals, this new Cab-Over-Engine Model is new in construction as well as design. It's a Cab-Over-Engine Truck in the fullest meaning of the term. The seat is over the engine, not alongside the rear of it. There is maximum extra-loading space, with perfected load distribution on front and rear axles and all four tires. The engine is completely accessible. New steering construction and the shorter wheelbase provide greatest handling ease. New hydraulic brakes provide maximum braking efficiency. Come in and see this new Cab-Over-Engine and other new models ranging from Half-Ton units' to powerful Six-Wheelers.
