**Accessibility Means Real Money Saved in Crawler Tractor Operation**

**McCORMICK-DEERING TRACTOR**

THERE are many reasons why you can expect exceptional results when you put a McCormick-Deering Tractor to work. . . . there are many reasons, speaking from experience, who say you won't be disappointed. You will find great enthusiasm among owners over the new accessibility and low operating costs the Tractor has brought into the crawler tractor field. There has been no sacrifice of compactness in attaining unusual accessibility. The Model T-20 turns in a circle having a 6-foot radius. It works in narrow orchard rows, close to fences, or near buildings, making a square turn when necessary.

The T-20, shown above, is an ideal unit for the farm, offering power enough for all average jobs. For heavy-duty performance, there is the powerful Model T-40, available with gasoline or Diesel engine. If you are thinking about crawler power, be sure to ask us about McCormick-Deering TractorTors.
