Mrs. Kortzeborn Tells of Month's Vacation Trip

Mrs. Edward J. Kortzeborn and sons Jack, Richard and Robert returned Thursday evening from a month's visit with her parents, Mr. and Mrs. C. Sautter, and brothers in Oakland, Cal., and sisters at Berkeley and at Lodi, Cal. They saw Mrs. Verlin Cochran and chil-dren sail from San Francisco on

the Lurline for Honolulu.

Among the many interesting places they visited were the two great bridges, the Golden Gate and San Francisco-Oakland bay bridge; the China Clipper ship at the Alameda airport, where a guide took them through the plane; the Oakland airport, where Amelia Earhart's plane was kept; San Francisco's Chinatown, Cliff House, Golden Gate park; the University of California at Berkeley; Leland Stanford university at Palo Alto, where they enjoyed the beautiful church on the campus, famous for its story Dr. W. B. Riley of Minneapolis, windows in stained glass; and the Treasure Island, which is being built in the bay to be used for the 1939 exposition and then for an

proaching them and going under them in boats, was most enjoyed by Mrs. Kortzeborn, who thinks a trip to see just these is most worthwhile. The best helder has discovered by the control of the best helder has a for Wednesday. The views of the bridges, apwhile. The bay bridge has six lanes while. The bay bridge has six lanes for motor traffic on the upper deck and trains and trucks travel on a lower level. A new type of sodium light, very yellow and fog-penetratlight, very yellow and fog-penetrating, is used on the bridge, and the tunnel through the island is finished in very shiny tile. The system of approaches, especially on the Oakland side, is very fine. Numerous sets of great steel interlocking teeth allow for trementerlocking teeth allow for treme several points along the bridge, and revolving red lights on all the towers are aircraft warnings.

The Golden Gate bridge looks

is a mile and a third long. Its two great towers are over 700 feet high, from top to anchorage, and the great cables are encased in three-foot steel.

She enjoyed the trip immensely, but says the green Oregon country.

Mrs. G. G. Hathern of Bend is a mile and a third long. Its two great towers are over 700 feet high, from top to anchorage, and the great cables are encased in three-foot steel.

She enjoyed the trip immensely, but says the green Oregon country.

Mrs. G. G. Hathern of Bend is a mile and a third long. Its two green or in the day morning.
