Must Be Watchful
 A German labor chieftain has been quoted as saying if anyone in the third reich does not march on the "Adolph Hitler road, we will step on his heels until he falls in line and keeps step. Since Hitler seized power, private affairs exist only when you sleep at night. When you are awakened and gone to your place of work, you must know you are a soldier of Adolph Hitler."

This sort of thing comes from dictatorships and is foreign to the thoughts of all good Americans. However, things are happening in this country and throughout the world that should make patriotic Americans, who love independence and freedom, be ever watchful that subversive forces do not get the upper hand while we take the smug attitude that "It Can't Happen Here."

Babson Bullish, Explains Why

(By Roger W. Babson)
 BABSON PARK, Mass.—Bankers and brokers doubtlessly concern many minds. We all do for that matter. It is not their fault, however, that people reach for stocks when the market is high and active, and sell when it is low and dull, as during the past few weeks. The sad fact is that the vast majority of those who purchase stocks use no sense or logic as to WHEN to buy. They buy when stocks are high and selling when they are low and listless. That means that now may be a good time to buy.

Why I Am Bullish
 For over thirty years I have studied the Babsonchart of Business Conditions. In September, 1929, or July, 1933, and because people refuse to pick-up stocks when the market is low and dull, as during the past few weeks. The sad fact is that the vast majority of those who purchase stocks use no sense or logic as to WHEN to buy. They buy when stocks are high and selling when they are low and listless. That means that now may be a good time to buy.

FACE SET LIKE FLINT
 Out from the ivory palaces and down to this big place, Christ came. On past the big places where he would be the rich. He went. On to the back sections where poverty, disease and ections held high carnival. The dead were raised, the lame made to walk, the blind to see, the hungry were fed. The common people heard him gladly as he opened their eyes to see how God would pour out on sinful man the riches of his favor.

 Saving Through Planning
 It is the fashion in certain quarters to sneer at planning in governmental affairs as both expensive and useless. Those who would damn it with the ultimate in damnation call it "socialistic." Conceding that some efforts by planners may be a sheer waste of time, we think there is no doubt that on the whole planning is here to stay, and in the long run will save the taxpayers thousands of dollars if intelligently directed.
