U. S. Taxed Least Says Local Woman

"One thing I want to bring home to people of the United States," said Mrs. C. E. Wells, who returned Monday from attending the Pan-Pacific Women's Biennial conference at Vancouver, B. C., "is that we are taxed the least and have the most particularly in good roads." She came to this conclusion after hearing reports from different countries, and especially Canada.

Mrs. Wells said that business seemed much better here than in British Columbia and that Vancouver was also having its most troubles. A strike was on at one of the big restaurants, and many pickets were on duty, forcibly preventing people from going into the eating place.

Hawaii, Philippine Islands, Korea, Japan, China, India, Australia, New Zealand, Canada, and the United States were represented at the conference, with Mrs. Gauntlet of China, president of the Pan-American conference, presiding. Theme of the meeting was "Peace," and many good talks were heard on this subject by some of the most able women of the world. Representatives from foreign countries were women who had received their education in the United States or England, and had returned to their own countries to educate their people. "A very inspirational meeting," reports Mrs. Wells.
