Camp Appreciated

Everyone that appreciates the very fine activity that the Boy Scout movement represents appreciates the generosity of Mrs. Elizabeth Milne Ireland in giving the use of a wooded tract northwest of town for a scout camp. This camp is proving a great stimulus to scout activity in this district and the boys, their parents and the many others interested certainly appreciate this fine opportunity.

Editor Irvine Retires

B. F. Irvine, the highly respected and honored editor of the Oregon Journal, has resigned from this important post and will henceforth, as a member of the Journal organization, devote his time to civic and historical movements. He will be succeeded as editor by P. L. Jackson, successful Journal publisher, and son of the late C. S. Jackson, whose energy and foresight were responsible for the development of the Journal into one of the great newspapers of the northwest and the nation.

The ideas and convictions of Mr. Irvine were expounded through the editorial page of the Journal for 29 years. His work was that of a sincere and conscientious gentleman, always interested in the better things of life and working for them through his editorial writings.

Court Proposal Dead

The Roosevelt supreme court reorganization bill is dead as a result of determined opposition on the part of a group of determined democratic senators and we believe that for the most part it will meet with the approval of the majority of American citizens.

Fine Appointment

Selection of Judge Hall S. Lusk of Portland by Governor Martin as supreme court justice to fill the vacancy caused by the death of Justice J. U. Campbell is an excellent appointment on the part of the governor. Justice Lusk is eminently qualified for the position and is held in high esteem by the lawyers of the state.

Autumn Pick-Up (By Roger W. Babson) BABSON PARK, Mass.—Sentiment has improved noticeably in the past fortnight. The gloom of early July is gradually lifting and confidence is slowly returning.

Roger W. Babson is more than a statistician. He is a prophet. His forecasts are based on a study of the past and a vision of the future. His predictions are being fulfilled.

- Ten Factors Pointing Toward Prosperity 1. Crop prospects best in ten years. 2. Purchasing power highest since 1929. 3. Labor troubles on wane for 1937.

Nevertheless, there are so many uncertainties in the outlook that I cannot help being optimistic on fall trade prospects. To back up my bullishness, I am discussing ten reasons why business should press further toward prosperity after Labor day:

1. Crop Prospects are exceptionally good. Big harvests of grains, fruits, vegetables, cotton, tobacco, high egg and milk yields; good feed conditions for livestock; these all point to the best year in the American farm since 1929.

2. Purchasing Power should be highest since 1929. The income of twenty-four million farmers, stockholders, and bondholders, will be at the rate of \$12,000,000,000 per week higher than last year.

3. Labor Troubles are apparently on the wane for 1937. C. I. O. has shot its bolt for this year. Snow squalls and labor squalls do not go together.

4. Building Costs are easing off. Since early spring the home construction steamroller has been slowing down, although activity is still 25 per cent above a year ago.

5. Inventories are not worrying me despite the high industrial production level since last September. Shelves, which were becoming over-stocked early in the year, have been pruned back to normal by fairly good retail sales.

6. Foreign Trade has made great progress in the last year. Since last November, exports have jumped 60 per cent and imports 40 per cent. The administration's efforts to lift world commerce back to its old level are finally being rewarded.

7. The French Crisis seems to have passed, at least momentarily, although Japanese are again making trouble. The ridiculous psychological fear of Japanese aggression has disappeared for the moment.

8. The house-hunter in Hillsboro these days is having a time of it. There are not houses enough for the demand, and it is safe to say that fifty cottages, or more, could find rental, because many come and go to some other town, because of lack of a place to keep them.

9. The recent change in the French government only serves as a warning that soon there will be a change in the French government.

10. The Basic Trend of business is still upward. This is the most important of all. For five years (1931-35)...

Favor Consolidation

(By A. L. Lindbeck) SALERM—Consolidation of smaller schools, equalization of taxation and more adequate school supervision and relief of property from a part of its present heavy tax burden were urged by county school superintendents meeting in Salem in their annual conference this week.

Appointment of Judge Hall S. Lusk of Portland to the Oregon supreme court is believed by many to have cleared the way for appointment of Claude McCulloch of Klamath Falls to the federal bench, a post which has been vacant for many months.

Lusk, who will take up his new duties on August 1 as successor to the late J. U. Campbell, will be the first democrat to grace the supreme bench in this state since the retirement of O. P. Coahow in January, 1931.
