## The New INTERNATIONALS

Style has had the spotlight lately in the new International Trucks. Streamlined style may be everything the public sees when your trucks are on the road, but in your own mind you know that the many improvements built into these trucks are even more important.

You can accept these beautiful trucks—the first completely new Internationals in three years—either on faith, based on International Harvester's 30-year success with trucks, or on a careful study of their modern engineering. Or on both. Come in and examine these trucks in our showroom.
