### Crops Get a Good Start with the McCORMICK-DEERING Little Genius Plow

THE whole scheme of crop production hinges on good plowing. It pays to have the best plows you can get. McCormick-Deering Plows have three generations of plow-building experience behind them and are as good as money can buy.

The Little Genius Tractor Plow in 2, 3, and 4-furrow sizes is one of the most popular plows in the McCormick-Deering line. It is built to stand up in any field and to do good, clean work under all conditions. Its parts are held in true alignment even in the hardest kind of plowing. Ample beam and bottom clearance prevents clogging. It is equipped with a spring-trip hitch with a lift-up handle which enables the operator to recouple the plow easily without leaving the tractor seat.

Come in and ask us about the Little Genius Plow and other types of McCormick-Deering Plows and Equipment.
