### Letters to Aloha Tell About Youth Trip Through Europe

(By C. E. Barker)  
ALOHA—Tennyson said, "I am a part of all I have seen," and on that basis Fred J. Ziegler Jr., a Grant high school student of 17, may be called a "lad of parts" for he has seen much of Europe and America. In letters to his aunt, Mrs. Richard Ferris of Huber, he relates his recent traveling experiences. From Oxford, England, he writes:

"This is a modernistic place, population about 68,000. Yesterday I went through Warwick Castle, which was the headquarters of Cromwell's army during the War of the Roses. Very interesting place, and the best castle so far seen. There is a moat all around the castle, and the old original portcullis is still in use. Much armor and many shields used by Cromwell are there.

"Since I landed in Plymouth I have done much and seen more. I went to the famous Cheddar Caves and the Wookey Hole. Today I went to Stratford-on-Avon and saw the interior of the homes of William Shakespeare and Ann Hathaway. Tomorrow we leave for London. Two of us plan to rent a baby car or a motorcycle to tour the city.

Jamboree Camp, Vogelenzang, Holland, August 1, 1937.

"All the foreign guys just mob us for autographs and to swap things. Even though many can't talk English they all come up and yell and pull around you yelling, "Swap!" They pull at our badges and go crazy over our neckerchiefs. Tax tokens from the state of Washington you can trade for their stuff. Everybody is very friendly. You are greeted everywhere with "Hello!"

"Coming across Holland on the train all the farmers working out in the fields wore wooden shoes. Later I bought a pair for myself and two pairs for some of the kids.

"This afternoon we marched in the arena before Queen Wilhelmina and Lord Baden-Powell. I was one of the American flag-bearers, so I was right up there in front. She was dressed all in grey and isn't bad looking. We Americans surely got a welcome cheer and reception. I was with a Dutchman who spoke English and he said, "If it were not for the Americans the Jamboree would not be so great." After all of the marching the queen gave a nice speech in Dutch. Then followed Lord Baden-Powell with a longer one in English. I would just as soon listen to a short one in Dutch.

From Switzerland he writes:

"Switzerland is a very pretty country. I saw the Rhone Glacier, the very mouth. The river there is narrow enough to jump across. We took an open bus up through the mountains from Lucerne to Interlocken. I got some lace and all that stuff. I got mother a musical clock that cost about \$17. It plays two pieces. One of the boys got a pair of skis to cart around all over France. Where I am now up in the Alps in a sort of small burg where there are many horses and buggies and few cars. I have ridden on a funicular railroad. All the wood carvings, lace, music boxes and clocks I have bought may make you believe I've bought out the complete stock of a store.

From somewhere in France:

"I went to Mt. Blanc, the biggest one in Europe. Three of the boys walked across the Mer de Glace, one of the big glaciers. In Monterey I saw the famous Castle of Chillon made famous by Byron in his poem, "The Prisoner of Chillon." We went by boat on Lake Geneva to the city of Gland. There I went in the Peace Palace. We have a very good guide who speaks five languages. I have had a chance to use my French."

#### Grange Meets Tonight

Regular meeting of the Aloha Grange tonight, Thursday.

Ex-Fire Chief Holden, formerly of Portland, now a citizen of this peaceful and busy retreat, can tell many thrilling adventures of his life in Portland. One will illustrate: The tower on the Oregonian building caught fire. Chief Holden put his hands on the parapet to pull himself up and over to the outside of the wall. Just then a stream of water struck him and he leaped back still keeping his handhold. The editor of the Oregonian saw it all—or thought he did. Next morning Chief Holden was surprised to read in the paper that he was seen holding on to the cornice suspended in air in stories above the pavement! Moral: It is obvious John Henderson was operated upon Monday for the second time for appendicitis in a hospital in Hillsboro and is reported in a serious condition.

Helen and Marian O'Meara of Portland visited for the past week with their uncle and aunt, M. E. O'Meara. Three enrolled in Maryhurst college Monday. Helen won a scholarship in music.

The body will be brought to Beaverton for interment.

As Darrell Reed and Lester Teschner were driving along Monday meditating on the exhilarating joys of the Oregon morning and other matters, they attempted to cross the highway and enter a field of grain on St. Mary's farm, where a threshing crew was at work.
