(By A. L. Lindbeck)

President Roosevelt in talk to SALEM-Bonneville may be just a huge \$40,000,000 power plant to the average citizen. But to the politically minded it represents a of his program "knocked out" by gigantic ammunition factory upon which to draw for material in the forthcoming cam-

dent, says John L. Lewis using C. I. O. as nucleus to make Lewis presi-dent of U. S. Farm measure linked This was clearly indicated this week when Howard Latourette, democratic national committeeman, opened his campaign for the govwith wage-hour bill as necessary to national soundness. Calls for fight to finish against C. I. O. ernorship with a blast at Governor Martin's stand on President Roosevelt's power policy. A statement by the governor that he saw eye Seventeen injured in bus accident to eye with the president in the matter of Fred M. West, veteran national rates and distribution of Bonneville power guard officer, named colonel of the 162nd infantry. drew from Latourette the charge that the governor had executed a political somersault and about-faced completely from his previously declared stand on Bonneville rates. To which the governor facetiously remarked that President Roosevelt in Chicago address warns that if international lawlessness spreads, America canthere will be Bonneville power for all candidates by election time and at rates within the reach of all politicians."

President Roosevelt's visit to Bonneville

not only touched off the gubernatorial campaign here in Oregon. It brought a lot of other candidates out of hiding to flutter for the time being in the reflected glory of the nation's chief executive. E. J. Griffith, WPA administrator and chairman of the commitee on arrangements, found it necessary to deny rumors that he was laying his political lines as a candidate for United States senator, but no such denial was forthcoming from either Carl Donaugh or Elton Watkins, both of Portland, and both regarded as ambitious to contest Willis Mahoney for the right to represent the democratic party in the sen-atorial campaign to unseat Frederick Steiwer who was unable to attend the Bonneville gathering because of a convenient hunting trip in Eastern Oregon.

Fines Aid Public Purse

A total of 1488 mbotorists arrested dur ing July for various infractions of the state's traffic laws contributed nearly \$11,600 in fines tothe public purse, according to a report by Charles P. Pray, superintendent of state police Fifty-nine drivers charged with drunkenness were fined an aggregate of \$4688.

. . . .

No State Levy Likely

Present indications are that there will be no state tax levy against property next year thanks to increased collection of income taxes. Revenues from this source to date exceed \$5,000,000, topping tax commission estimates by nearly \$1,000,000. A mopping up campaign to be carried on by the commission to catch the laggards and dodgers is confidently expected to produce another \$200,000. If 1938 ollections, based on 1937 incomes, can be de pended on to continue at the 1937 level it will us. be possible not only to wipe out the property
tf levy within and without the constitutional six per cent limit, but to pile up a small surplus for support of the common schools if and when the legislature sets up the machinery for apportioning this surplus among the seveeral counties.

Called Gambling Devices

Pin ball machines and slot machines are gambling devices designed to attract the patronage of the ignorant and the simple. At torney General VanWinkle declared in a brief filed with the supreme court this week in support of the state's appeal from the decree of Judge Walker of Polk county, who had dismissed two suits brought against C. C. Coats. The appeal puts the legality of these devices squarely up to the supreme court for the first time since the drive was launched to outlaw these machines more than a year ago,

. . . .

Uncle Sam's Job

Uncle Sam stands ready to construct the transmission lines for distribution of Bonneville power, in the opinion of Governor Martin. The governor said that he gathered this impres velt on his visit to Oregon last week.

Thirty-one persons lost their lives in fires in Oregon during the first six months of 1937, it was reported this week by Hugh H. Earle, state insurance commissioner. Eighty - eight other persons were injured in fires during the

same period. There were a total of 2184 insured fire losses during the six-month period with losses totaling \$1,200,215, reports compiled by Earle show. Approximately two-thirds of the 2184 blazes were in dwellings, although these losses represented only one-sixth of the total. Careless smokers accounted for 482 of the 2184 fires to head the list of causes. Other major causes include overheated and defective chimneys and stoves, sparks and open fires.

Oregon Debt Reduced

Oregon's bonded debt was reduced this " week to \$46,585,010 when State Treasurer Holman sent \$2,568,699 back to New York City to pay principal and interest due on this debt load. The total debt is nearly \$20,000,000 under the peak, reached on anuary 1, 1928, since which time it has been gradually reduced year after year.

Drill for Oil

Oregon is taking a flier in oil. The state land board this week authorized Lewis Lilly, Boise oil operator, to drill on a half section of school land in Malheur county, one mile south of Vale. If oil is found in paying quan-tities the state will receive one-eighth of the output, but even Lilly admits that the venture is one of the "wildest of wildcat schemes."

* * * * Governor Martin 74

Governor Martin who celebrated his 74th birthday Friday is the next to the oldest governor in the United States. Governor Wilbur L. Cross of Connecticut was 75 on April 10, last. Governor Martin spent his birthday in his office receiving scores of congratulations and well wishes by letter, telegram and in

A 40-acre tract on the John Day highway 15 miles north of Dayville is to be preserved as a state park. The tract which contains a large deposit of fossils belongs to James Moore, Dayville stockman, who has agreed to trade it to the highway department for another tract of equal acreage.

Jots in Jest

Toughest problem of the year was that of the western nudist convention deciding where delegates should pin their convention badges. That old puzzler—when was mutton the highest?—has been answered by a news item

reporting that 10,000 sheep were shipped 350 miles by plane in central Asia.

Hitler is one of the world's greatest dictators, but then you must realize that Hitler is not a married man.
