# Bonneville Chief to Appear Monday

Ross served the city of Seattle as manager of its city power plant until he was discharged by Mayor Frank Edwards, shortly before an election in which the voters decided to turn over manufacturing of all power to him. Subsequently, the Seattle voters recalled Edwards and Ross was re-instated by the succeeding mayor. His work in connection with the Skagit river power center of Seattle's electrical setuphas made him famous throughout the country.

A close friend of President Roosevelt, Ross has been described as "a man of strong character, and one who thoroughly understands his job." His appearance in Hillsboro marks one of his first talks since being named to the Bonneville job three months ago. ### "Custer's" Sword Displayed; West's History Recalled

Stirring drama of the Old West was called to mind this week at One thousand charter members by January 4 is the goal of the Oregon State Democratic club now Argus officer's saber brought in to the Argus office by C. A. White o Sherman's mill.

Initials "G. W. C." are discernible on the brass hilt of the old sword, indicating possibly that it belonged at one time to General George Custer, famed Indian fighter, who met death along with 264 of his force when ambushed by 6000 Indians at the juncture of the Big Horn and Little Horn rivers in Dakota in 1876. "Custer's Last Stand." Last Stand," long an outstanding episode in the sometimes bloody history of the winning of the west, took place at that point, with every man of his command being cut down by the savage Indians under Crazy Horse and Sitting Bull fam. NORD offers two new cars for 1938the Standard Ford V-8 and the De Luxe Ford V-8. They are different in appearance - but built to the same high standard of mechanical excellence - on the same chassis.

Because people liked our 1937 car so well, they bought more than of any other make. They liked its looks, its smooth performance, and the way it handled. We have improved on that car in the newly styled Standard Ford V-8.

But some folks wanted still more size and style, with the same Ford advantages. For them, we designed a new De Luxe line.

The De Luxe Ford V-8 Sedans are longer with more room, larger luggage space, and finer appointments all around.

De Luxe cars are equipped with the 85horsepower engine only.

The Standard is even lower priced than the De Luxe. It has graceful new lines and well-tailored interiors-with a choice of engine sizes-85 or 60 horsepower.

Before Ford made V-type 8-cylinder engines available to every one, they were used only in expensive cars. Since then, four million Ford owners have learned the genuine enjoyment of driving an eightcylinder car with all-around economy. The thrifty "60" engine, especially, makes possible in Standard models a very low first cost and equally low operating cost: With two distinct designs, two engine sizes and two price ranges, you'll find a 1938 Ford car to fit your needs exactly.
