MacKenzie visited Hillsboro Thursday night while in Oregon for the tri-state 40 at 8 "wreck" in Portland and while here talked with Jake Weil, Hillsboro Legion post commander, concerning the forthcoming American Legion amateur contest. Plans for further club work will be discussed, and it is hoped that the re-organization of some of them will take place at that time. Mountain Home has four 4-H club activities, and it is hoped that some more will be started this year.

In spite of scarlet fever and cancellation of some public meetings, Mountain Home was the scene of considerable social activity during the week-end. Mr. and Mrs. Roy Jaquith and family entertained a group of young folk with a Valentine party on Friday evening.

The old saying regarding misfortune not coming singly might be borne out in this neighborhood. John Davis had all the pork stolen from his smokehouse, where meat from two porkers was curing. Then last week, Davis slipped and fell as he attempted to get up from having milked his cow. The milk was spilled and the cow kicked Davis, breaking his leg. Another trip to the doctor last Saturday revealed in an x-ray picture that the bone is knitting satisfactorily.

Mountain Home Christian Endeavor society is an honor society for the first two quarters, the only one in the Oregon-Washington Conference having this record, according to a report made Sunday.

Oscar Schanz, a grandson of Mr. and Mrs. Jon Davis, is staying with them. Oscar gave up attending Benson Polytechnic school in Portland to help his grandparents. He expects to remain here until August and plans on resuming his studies next fall.

The Great Virgil Coming as Star of Venetian Bill

The Great Virgil, billed as "the psychic enigma," opens a three-day performance at the Venetian theatre tonight (Thursday) to continue until his big "Den of Living Nightmares" midnight show Saturday.

He will present his startling mind reading specialty and will answer the questions put to him by members of the audience. In his personal appearance, the Great Virgil will present a demonstration of mental telepathy and human television. He is said to have predicted such affairs as the Los Angeles 1933 flood disaster, election of Hoover and Coolidge, payment of soldier bonus, and the capture of Dillinger.

Beauty, mystery and fun are incorporated into his "Nightmare" spectacle, which will be presented at midnight Saturday. The nightmares do not confine their activities to the stage, but wander out in the audience as well. In connection with Virgil's appearance, "Cairo," the talking mummy, will be on exhibition in the theatre foyer for the three-day period.

Three thousand dollars was the net income from a "Traffic Safety Review" recently staged by the Dallas, Texas, traffic safety commission. The United States navy band was a big feature of the review. The commission will use the proceeds to finance its campaign of safety education in the city.

JOY IN CALIFORNIA

The gray-haired woman with liquor on her breath would have a dime for something to eat. At the offer to take her out and buy her a lunch she slipped away. The dime was for drink, you see, not for eat.

"That's my trouble—" This from the young medie-looking man in the fine o'coat standing by. Seems he had thrown up a \$60 job as orderly in a sanitarium down south to go on a drunk. So far as able to recall he had been in town four days. A little touch of home-life ought to help the man, and the voice at the end of the phone said a guest would be welcome for dinner.

Outside the Mission door the man lighted a cigarette to quiet the nerves always upset after days of drink. Back among the firs in the west-side hills, the open fire and magazine were his until dinner. Born in Argentine Republic and a perfect gentleman, his experiences down there made him worthwhile in the dinner hour. Then another smoke as he followed out to the milking shed. The chores done, he had a question—"Do you really mean that you have peace in your heart?" That was opening enough and the WHY of perfect peace now and forever was set before him. Two

Young people from a Bible Institute had the services in the Mission that evening and that man of dark skin and lonesome heart raised his hand for prayer. The group quit the platform and surrounded him. Bible verses, testimonials with prayer followed in on him and finally he yielded himself, kneeling and asked forgiveness for the sins of a lifetime. One of the first fruits was to give over a six-page letter written earlier in the day to set forth to his mother his drunken state. Next morning saw him indie the letter of letters, outlining his first step into a new life and hope. So there was joy in heaven over a sinner that repented and joy in that California mother's heart over a son safe on the glory trail.

ON POTASH FED PASTURE"

PASTURE land can be made the most profitable land on the dairy farm. Test plots in 1937 proved that potash in the fertilizer increases the yield of pasturage 5,000 lbs. green weight per acre. In addition, potash improves the sod by encouraging the desirable grasses and clovers, thereby increasing the feed value and palatability. Apply to your pasture now a mixed fertilizer containing at least 10% potash. This will make a top-dressing of nitrogen fertilizer later in the year more effective. High-potash fertilizer will also be a desirable supplement to any manure treatment that the pasture has previously received. For further information, consult your fertilizer dealer or write us at P.O. Box 44, Puyallup, Washington.
