## Witch Hazel School Honor Roll Given

WITCH HAZEL.—Two students of the Witch Hazel school having perfect grades on their report cards for the last six weeks were Marylyn and Aileen Johnson, both of the upper grades.

Students in the upper grades, who have had a perfect tardy and attendance record for the last six weeks were Eugene Anderson, Lorraine Churchley, Mary and Gene Gourdeaux, Aileen Johnson, Effie and Lilly Kjolnes, Eldo Nofziger, Beverly Rolf and Dolores Witte. Lower grades, Evan Kjolnes, Leonard Martin, Erloy Nofziger and Roy Fishy.

### Egg Hunt Held

Last Friday afternoon an Easter egg hunt and science roast were given the children of the school. Patricia Hoefel was the girl who found the most eggs of the upper grade students and Kennard Helweg of the boys. Lorraine Churchley and Ross Kellogg found the fewest. Prizes were given for both the high and low score. In the lower grades Jack Gourdeaux won high score in the egg hunt. Games were played and the following students won prizes in the guessing contest: Harvey Crider, and Leonard Martin in the egg throwing contest.

There are only 34 more weeks of school at Witch Hazel. The upper grades will start reviewing next week for their final exams.

## One "LITTLE START" can waste 1/3 mile of gas!

In your daily stops and starts, your engine eats up gasoline faster than you realize. How far your engine runs depends on how often you stop and start, how much you actually drive in low and second gears.

In "low," your engine makes about 12 revolutions for each turn of your wheels. In "second," about 8. In "high," it makes only about 4.

Shell engineers found that getting away on a single start can waste enough "undigested" gasoline to carry you 1/3 of a mile. To cut this costly waste, they found a way to rearrange the chemical structure of gasoline, making every drop usable to your motor under all driving conditions.

**YOUR GEAR RATIO**

IN HIGH GEAR IS ABOUT 4 TO 1  
IN SECOND GEAR IS ABOUT 8 TO 1  
IN LOW GEAR IS ABOUT 12 TO 1

The more you STOP and START, the farther your engine travels in comparison to your wheels... and the greater your waste of "undigested" gasoline.

You can save on your stop-and-go driving costs by the regular use of Super-Shell. Try it—and see for yourself.
