Here's the "Low Bidder"

The world's largest construction projects are let to low bidders... contractors who can do the best jobs at the lowest cost.

Why shouldn't farmers do likewise... buy the products that are "low bidders" in the matter of operating costs.

Most farmers do... They buy "Caterpillars." "Caterpillar" Farm Tractors are sold at approximately the same price as other products of less quality... they produce much more... on less output for fuel, repairs and depreciation. They are "low bidders" for your job of farming.
