### Lutheran Hour to Resume Oct. 23

The Lutheran Hour, featuring Dr. Walter A. Maier of Concordia Seminary, will return to the air Sunday afternoon, October 23, for another series of 26 broadcasts over a coast-to-coast network of 62 stations of the Mutual Broadcasting System, according to word received by the Rev. George Heide, local Lutheran minister.

The program will be broadcast twice each Sunday afternoon, due to the unavailability of all time on all stations at the same hour. It will be heard at 1 p. m. Eastern Standard Time over 13 Eastern stations, and at 3:30 Central Standard Time over 40 Central and Western stations.

**Broadcast From St. Louis**  
Originating at Station KFUP, St. Louis, the program will be heard on the second broadcast from the 27 stations of the Don Lee Network in California, Oregon and Washington.

Resumption of the broadcasts will also mark the return of the Lutheran Hour Chorus, composed of students of Concordia Seminary, and the nationally-noted St. Louis A Cappella Choir, a mixed chorus of 50 voices.

A noted theologian, author and lecturer, Dr. Maier has attracted wide attention through his Lutheran Hour broadcasts since their beginning in 1930. He has been an uncompromising advocate of the divine origin of the Scriptures and a vigorous opponent of communism, atheism and social theories that conflict with Biblical belief.

### Mill Closed After Auto-Truck Crash

It's not very often that an automobile accident is responsible for the temporary suspension of work at a sawmill, but that is the very thing that happened Thursday morning when two Dixon mill workers were seriously injured in a truck-truck crash as they were going to work.

Chris Anderson, settler, and Ed Overstreet, jitney driver, were the mill employees receiving injuries and three broken ribs, respectively, when their car was struck by a heavy slabwood truck and crushed against a bank. The truck driver admitted, following the accident, that he failed to see the ill-fated car in front of him before it was too late.

The mill was opened the next day with two new men holding down Anderson's and Overstreet's jobs.

### Awards Presented To 4-H Members

Awards of special gold medals have been approved for the county winning 4-H team in the National 4-H dairy demonstration contest, announced the committee in charge. The team members are Ed Setniker and Joe Berger, both of Hazeldele. The subject of their demonstration was production of grade B milk, and they were coached by L. E. Francis, assistant county agent.

Silver medals are approved for the second placing team, Donald Meier and Dick Jossy, both of Rock Creek. Their subject was the use and care of the milking machine. The Washington county winning team won the state contest and won an all-expense trip provided by the Kraft-Phenix Cheese corporation to compete in the finals at the National Dairy Show in Columbus, Ohio, October 8-15. The eight top teams, two from each extension section, will divide \$2,000 in college scholarships.

### Early Filings for Land Interest

PORTLAND—Crude but cryptic were pioneer land claim descriptions such as that filed by George Franklin, who said, according to records reviewed by workers of the WPA historical records survey: "I want the claim south of the McKay claim on the northeast corner is a tree and balance stakes the northern claim at present is occupied by John McPherson 640 acres." Filed in 1845 in the no longer existent Tuality county, this was typical of many others of the period.

Another pioneer, J. S. Griffin, had his property recorded: "This claim I took in the summer of 1841 and laid it out by the measurements of the United States Squadron and took the altitude of the North Star at the time and found the same to be 45 degrees, 44 minutes, 45 seconds. This was without nautical allowances for the revolution of the star around the time pole."

In 1849 description of one land claim reads: "Hinton Bonser claims 320 acres of land in Washington County, O. T., situated on Suvy's Island and bounded as follows: Commencing at a cottonwood tree on the bank of the Columbia and running thence west a half a mile with John Bonner's line to a willow; thence south one mile to a willow; thence east half a mile to a cottonwood tree; thence north one mile to a place of commencing. Recorded in this office (clerk's office) November 19, A. D. 1850."

### Waiting Periods Allowed Workers

SALEM—Unemployed Oregon workers eligible for new jobs insurance benefits January 1 will be given an opportunity to acquire two waiting periods in advance of the new year.

Claim deputies in the 22 field offices have been instructed by the commission to permit unemployed eligible workers to register for 1939 benefits during the final quarter of this year.

Filing of the new claims in advance will permit the central office to compute maximum benefit amounts for 1939 prior to the turn of the year and thus eliminate congestion during the first weeks of January.

Nearly 27,000 insured workers have been paid in full for 1938 benefits and many of those who are unemployed are expected to file new claims during October and November.
