More Home Building Planned At Aloha; Place Beautified

ALOHA—R. C. Reeter, deputy sheriff of Multnomah county for twenty years, is starting to build the six-acre tract he bought three years ago on South Wheeler avenue. His will be one of the finest homes on the street.

Plan New Home
C. J. Slickney sold an acre tract on Shaw street west of Lang to Mr. and Mrs. James Renfro of Bethany, who will at once begin the erection of a small home. The same firm sold one acre on South Wheeler avenue to Mrs. Barbara M. Smith, who came here last fall from Nebraska. She will build soon.

Place Beautiful
H. J. Woell started beautifying his place at the corner of Union avenue and Johnson street eighteen months ago, and considering the progress made, one would judge that he had lived there for a much longer period. Stately oak trees, luxuriant vegetable garden, and well cultivated shrubbery makes this one of the prettiest homes in the north end of town.

Mrs. J. Rathgeber, Charles Adams, Mrs. Elizabeth Candler of MacNutt, Saskatchewan, Canada, Mr. and Mrs. Philip Schappert and Mrs. Bruno of Rockberry, Saskatchewan, Canada, left Tuesday for their homes after visiting for a week their relatives, Mr. and Mrs. George Meyer. Mr. and Mrs. Meyer, originally from Canada, came here from Columbia county six months ago, and have been busy in love with their home on North Union avenue.

W. H. Harper of Forest Grove has the contract for building a new roof on the house of Walter Richter. Mrs. Julia Schaeff of Agate Beach visited friends and relatives here last week. She left for an extended visit with friends in Wisconsin.

Martha Lohus left Saturday morning for the Golden Gate exposition, San Francisco. She is one of the 10,000 junior musicians from all over the west coast who gave three concerts on June 25 at the fair. Martha plays the violin.

Mr. and Mrs. Victor L. Lohus and Mr. and Mrs. Arthur Kolkbeck of Beaverton were Timberline visitors last Saturday.

Sunday dinner party guests of Mr. and Mrs. William Doern Jr. were Mr. and Mrs. H. A. Kurathi and daughter Dorothy of Hillsboro, and Rev. and Mrs. H. G. Dickman and daughters Ruth and Marian of Phillips. Mrs. Doern is a daughter of Mr. and Mrs. Kurathi.

Artie Taylor, young daughter of Mr. and Mrs. Arthur U. Taylor, is spending a vacation with her uncle and aunt, Mr. and Mrs. Bruce Taylor, who operate summer cottages at Taft.

Flat Heads Aided Indians to See Without Being Seen, Rafferty Says

(Editor's Note: Following is the fourth of a series of nine articles taken from a treatise on Indian lore and customs written by the late Dr. D. A. Rafferty, who settled at Mountaineer with his parents in 1852. His rambling recollections are based on first-hand observation of Indian tribes living at that time in Washington county.)

IV. THE INDIAN'S EDUCATION

From early times until government control, teaching of crafts and the main part of Indian training was the making of flatheads by lashing a board over the head and leaving it there during the early months. The reason for this was to protect them in battle or in hunting game. Arrows and spears would glance off better and they could peep over logs or from behind trees without being seen. The habits of wild game for their own existence was pitted against the wily Indians.

Most of the Indian's traits were due to heredity rather than to any form of education. An Indian would trade anything away and then want to trade back again. He would send his wife to the store to buy a pair of shoes and he would not come back until he had a pair of shoes.

"The Indian's mimicry of wild game was perfect. He would follow the animal on the windward side and in his soft moccasins and perfect mimicry of the calls and cries of the animal would snare him to the arrow, bludgeon, spear or pit fall. They were also very skillful in calling game.

The setting mother bird would not bat an eye if abruptly disturbed, but will limp just fast enough to get you away from the loved nest, when she can easily sail away. Such habits and instincts were known to the Indian. The squirrel like the flathead Indian could see but always kept himself out of sight. The Indian's habits were so close to nature, their daily life was a study how to live and conform their education to their daily needs.

"We found in those days the Columbia, Willamette, the sloughs and most lakes alive with wild game birds. When swans were feeding they stuck their heads down to graze for the wapato. An Indian with a tussock of grass tied to his head, creeping softly up to the bank, moving continuously up and down, would grab the swan by the neck as it dived under, and choke it to stillness.

"A bank of Indians would surround a deer and in a few minutes they would have him skinned and the meat would be cooking over a fire.

Publisher Brodie Dies at Capital

Edward E. Brodie, 63, publisher of the Oregon City Enterprise, well known to many here through his activity as a republican leader and former minister to Siam and Finland, died suddenly Tuesday afternoon in the office of Cecil Edwards.

Mr. Brodie, who had been mentioned as a likely choice to succeed Arthur K. McMahon as chairman of the state liquor-control commission, was "chatting with" Edwards when he suddenly threw a cigarette from his fingers and slumped in his chair.

A native of Oregon, he had been a leading figure in Oregon newspaper circles for many years, being a past president of both the state and national editorial associations. Mr. Brodie was at one time chairman of the state republican central committee and was a member of the state prison board. He was also an ex-chairman of the state liquor commission.

Funeral services will be held at 10 a. m. today (Thursday) in Oregon City.
