One way of keeping our feet on the ground

What a changed world it was for the first balloonist. He saw hills and valleys level out. He saw dark clouds serving a thrilling purpose when they reflected a gorgeous sunset. He got a new perspective. Wise is the man who takes a broad view of today's events and keeps them always in true focus. He makes no mountain out of a rumor and sees no valley as deep as the despair of the pessimists. He is confident that he can take the hurdles as they come.

Such a man has the will to work—and the good judgment to relax when work is done. Moderate in all things, in his thoughts and in his activities, he is living—really living—with and for his family and among his friends. (He is unusual if he doesn't usually serve Budweiser.) He is, indeed, the backbone of America.
