

New Mains Laid Water Supply To Improve City

The roaring clatter of jackhammer chisels last week on Third avenue brought home to citizens that a considerable city water-main improvement project which will add much to the safety and convenience of dwellers in the residential districts involved is nearing completion.

The new 6-inch pipe line being laid on Third from Main to Grant is the last stage in the project begun over a month ago. Old mains, mostly 4-inch wood, have been replaced with 8 and 6-inch steel. Completion of the work is expected by August 10. City Manager J. W. Barney said.

Replacing of 4-inch pipe between Washington and Baseline with new 6-inch mains is done except for making the Baseline connection, he reported. Also completed during the month is the replacing of old 4-inch with 6-inch pipe from Baseline south to Maple on Third and on Maple between First and Third. With a 4-inch connection with the 4-inch main on First completing the circuit and enabling users to draw in either direction.

Old 4 and 2-inch mains on South Seventh from Oak to Maple, and east on Ninth have been replaced with 6-inch pipelines. On Fifth north from Grant one block of 4-inch main has been laid and a hydrant set up to serve this new residential district. New main has also been laid on North Ninth from Main to Lincoln, and east to Cornell road, where a hydrant was set up to reduce that district's fire hazard.

Council Adopts Parking Ordinance

for three months in front of a street clock from in front of the former J. L. Anderson jewelry store to a new location in front of the Aberdeen store. The denial action was followed by instructions of the council to City Attorney Paul Peterson to prepare and submit appropriate legislation providing for the complete removal from Main street of the clock.

An ordinance calling for repair of sidewalk abutting on the Washington street property of Mrs. Elizabeth Tongue Fry was passed. Four maple trees will have to be moved in order to level the concrete.

The council granted three requests for installation of service station tanks and allied construction—to Les Alter for an additional 200-gallon gasoline storage tank and pump at 404 South 10th, to S. H. Davis on similar request for 285-gallon tank at 500 South Tenth and to Charles Ketcham for a combined service station and cleaning plant on property lying between city baseball park and the city limits on the Tualatin highway.

The Ketcham construction permit was granted subject to his compliance with state fire marshal's regulations. Ketcham recently acquired the property after a city ordinance changing zoning regulations assured him that a business would be allowed there.

Officer Ole Nielson delivered a report on police activities for the second quarter of 1940.

Resolutions of opposition to the holding of midjet races on the Shute park speedway on August 31, last day of the county fair, were read but no action was taken in view of the probable abandonment of the entire midjet race series here. The resolutions were adopted and sent to the city council by the Aloha Grange and the Washington County Pomona Grange.

Rabbitry Wins Seven Prizes

MOUNTAIN HOME—Dr. and Mrs. Ferrill, owners of Ferrill's Rabbitry, report that their rabbits won seven prizes at the rabbit show which was held at Jantzen Beach during the week-end. Of the prizes taken by the local breeders, four were firsts, and one of the first prizes for the rabbit having the best fur. Another was a senior buck and quite an unusual rabbit, which is called a Lilac. The fur is short, close, very soft and of a beautiful mauve gray. It is said that fur from these rabbits does not require dye, and is much in demand. Besides the seven prizes won by Ferrill's, two special awards were given them. Approximately 200 rabbits were in competition. The show was sponsored by the Oregon Branch of the American Breeders' association.

Several from here attended the dairy co-op at Jantzen Beach Sunday.

James Allison Honored

James Allison was honor guest at a birthday anniversary dinner party at the J. B. Bartlett home last Thursday evening, when a family celebration was held.

Last Friday night was church night at Jennings Lodge Evangelical camp meeting and it is reported that there were about one hundred present from the Chehalis charge, which included Laurel as well as Mountain Home.

Among those who have been camping at Jennings Lodge should have been included the name of Mrs. Howard Browning. Mrs. George Kirkpatrick attended the meetings of the missionary group at Jennings Lodge as a delegate from Mountain Home Woman's Missionary society.

Mr. and Mrs. Ferd Sersen returned Saturday from their trip to Canada, and were week-end guests at the William and Roscoe P. Courtney homes, before going on home to Los Angeles the fore part of this week. Their daughters, Janet and Miriam, accompanied their parents as far as Ridgefield, Wash., and then returned home with them.

Attends Camp

Mrs. Roy Jaquith left Sunday for the homemakers' camp at Silvercreek Park, where she will remain most of this week. Mrs. H. T. Hesse of Scholls accompanied her.

Miss Jacqueline Howell accompanied her mother, Mrs. Hettie Crow, to Portland July 31 and remained until Sunday night.

Grease, Oil Stains

Stains left on the car's upholstery by grease or oil may be removed by using any one of several solvents, such as carbon tetrachloride, benzene, ether, or gasoline free from lead, according to the Emergency Road Service of the Oregon State Motor association. To lessen the possibility of grease rings start with a clean cloth outside the spot and rub toward it with a circular motion. Lukewarm soapsuds are also effective.
