News Then... Remember When?

Exactly 50 years have passed since the Washington county courthouse took on this appearance with addition of a south wing to the original building pictured by "News Then" last week. A T-shaped structure was formed by the 1891 addition. The picture above was taken when the "redwoods were runts" in 1896. Only imaginary time was dispensed by the clock-tower, which was added more for the sake of appearance than service. News then... remember when? (Ed. Note: This is the second in a series of five historic pictures of the county courthouse.)
