FREE FAIR

4-H CLUBBERS, FUTURE FARMERS,
EXHIBITORS AND VISITORS

"Bigger and Better Than Ever!" That phrase has grown a bit trite since the days of the Great Barnum . . . but they are the only words that honestly describe Washington County's 1941 Free Fair. This home-owned, independent bank congratulates everyone connected with making the fair now under way such an outstanding success.

The officers and directors of this bank also wish to commend the 4-H Club and Future Farmers of America members for the fine displays and events they have prepared for the fair . . . they indicate a high plane of achievement for the past year's work and planning. We wish you the best of success in your coming competitions not only at this fair but at the State Fair and Pacific International Livestock Exposition.

Development of agriculture and 4-H and Future Farmer programs in Washington County have always held the keenest interest of the bank. We value these undertakings as builders of 100% industrious citizens for tomorrow.

Sound business methods and adequate financing are important factors in any successful agricultural program. The Commercial National Bank stands ready at all times to co-operate with 4-H and Future Farmer members, to give counsel and confer on financial problems.

We cordially invite you all—4-H Clubbers, Future Farmers, Exhibitors and Visitors—to visit us at our fair booth, and to avail yourselves of our many "personalized" banking services.
