Mrs. Carl Bertsch started working as a welder last Thursday at the Hillsboro ration office and at service stations, according to Mrs. J. W. Barner, office manager. She urges that the application be read carefully and that instructions be followed so as to avoid confusion and delay.

The applications should be mailed in to the ration office and in turn the new books will be mailed out to the applicant. It is pointed out that this will save time and avoid the necessity for people standing in line. The applications should not be wasted as the supply is limited.

Volunteer Help Wanted
Because of the rush expected in connection with ration handling of applications and mailing of the books a plea is being made for volunteer help. Anyone willing to help should contact the ration office (telephone 2801) to determine when they will be needed.

Car owners should file their applications as soon as possible so that the board may process them and mail out all new books before the present "A" rations expire July 21.

The mail renewal plan, which also includes renewals of the basic "D" motorcycle ration, eliminates the schoolhouse registration that was necessary when the basic rations were issued last autumn. To get his "A" or "D" books a car and motorcycle owner needs take only the following simple steps:

1. Pick up an application form at any of the following service stations or places.

2. Fill out the form and mail it to the War Price and Rationing Board together with (a) the back cover of the present "A" or "D" book (properly filled out), and (b) the current tire inspection record showing the proper inspections have been made. The back cover of the present ration book is required as part of the application because it is evidence that the owner held a properly issued ration and is entitled to a renewal, the chairman explained.

Any motorists who have not had at least one tire inspection by a qualified inspector will be denied a renewal.
