FALSE TEETH That Loosen Need Not Embarrass

Many sources of false teeth have suffered real embarrassment because their false teeth slipped or wobbled at just the wrong time. Do not live in fear of this happening to you. Just sprinkle a little FASTEETH, the alkaline (non-acid) powder, on your plates. False teeth more firmly, so they feel more comfortable. Do not sour. Check "plate odor" (denture breath). Get FASTEETH at any drug store.

WAKE UP AMERICA! Is Palestine Economically Suitable As a Jewish State?

Moderated by FRED G. CLARK, General Chairman, American Economic Foundation. As debated by R. Netanyahu, Executive Director, New Zionist Organization of America, Inc.; and Murray G. Harris, Celebrated British Fiver, Diplomat and Author.

MR. NETANYAHU OPENS: Palestine can absorb all the millions of Jews in need of a homeland, while these Jews are best fitted to convert that sparsely-populated undeveloped territory into a thriving industrial and agricultural country.

MR. HARRIS OPENS: Economically, Palestine is not a paying proposition. It cannot become a Jewish State while the Mandate is in force. This promises only a Jewish Home, while guaranteeing rights of non-Jewish communities. Palestine, the size of New Hampshire, is mostly desert and cannot hold 1/10th the homes.

MR. NETANYAHU OPENS: Palestine can absorb all the millions of Jews in need of a homeland, while these Jews are best fitted to convert that sparsely-populated undeveloped territory into a thriving industrial and agricultural country. If a land of similar geological and climatic characteristics, like Sicily, is taken as a basis for calculating Palestine's absorptive capacity, Western Palestine alone can accommodate approximately 5,000,000 and the whole mandated area more than three times as many.

MR. HARRIS CHALLENGES: The Zionist dream of ousting the Arab from his millennial home, founding an economic empire to supply "undeveloped peoples" of the Near East is certainly not in keeping with the spirit of the Atlantic Charter. I doubt Mr. Netanyahu has quietly annexed Transjordan to Palestine. I note that Saul and David ever claimed Gilead, the land of the Ammonites, as part of Judah. Even this gratuitous annexation would not help his case.

MR. NETANYAHU REPLIES: I did not have to "annex" Transjordan to Palestine. It belongs to it historically and geographically and is part of the mandated area. Gilead is never the land of the Ammonites. Its fertility is a known fact. That it provides "the barest livelihood" for a few nomadic tribes is no evidence of its possibilities. Iraq, one of the most fertile of countries, also provides the "barest livelihood" for its Arab masses. An industrious Jewish population would turn this undeveloped, depopulated area into a highly productive land, as happened with other "desert" areas in Palestine.

MR. HARRIS REPLIES: Irrespective of Arab rights, this barren land has the numbers proposed. In 1920, American King-Crane Commission warned Britain that immigration had reached dangerous proportions and advocated a "greatly reduced Zionist program." There were then 10 Arabs to every Jew; the ratio is now 2 to 1, and the population has tripled. Palestine lacks water for extensive colonization and industrial development.
