THE OLD JUDGE SAYS...

"The war stories I like best, Judge, are the ones by the special writers overseas who live right with our troops. They give us a better idea of how our men react to things going on over there and back here at home."

"I agree with you, Sam. I never miss one of those stories in the papers or magazines. And there's no matter where they are stationed with our men...and that is that the men who have left their homes and families to go

away and fight this war don't want to come back and find that prohibition has been put over on them while they were away...either nationally or locally. They have heard about the attempts being made and they resent it bitterly."

"I agree with them, Judge, even though I don't happen to drink myself. Furthermore, I don't think it's fair for us at home to be making any major changes while 10,000,000 of our fighting men are away and have no chance to express their opinions."
