

Carlson Brother Dies in Action June 26 in Italy

BANKS—Arthur Carlson has received word that his brother, Sigvald Carlson, was killed in action June 26 in Italy. Mr. Carlson left Friday for Pevee, S. D., to visit his mother.

Mrs. Elsie Hamblin arrived Wednesday of last week from Benning, Mo., to be with her son, Fay Hamblin, and family in their bereavement. Ocie, the 10-year-old son of Mr. and Mrs. Fay Hamblin, was drowned at Seaside July 2 and the body has not been recovered.

Mr. and Mrs. Clair Swank and 3 children visited Sunday with Mr. and Mrs. Leland Tebo and family in Portland.

After Johnson and family have moved into the P. D. Dreessen house north of Banks, Mr. Johnson drives truck for Mrs. Ina Johnson.

Mrs. Chester Davis spent last week at Garibaldi helping her mother, Mrs. George Adyott, get settled in a new home.

Home from Hospital
Mrs. Nell Widdens returned Tuesday to the home of her niece, Mrs. Amos Cutright, from the Good Samaritan hospital, where she spent a week receiving medical care. Mrs. Widdens' home is in Clatskanie, but she is being cared for during her illness by Mrs. Cutright.

Pvt. Hansen Wins Mention in Contest

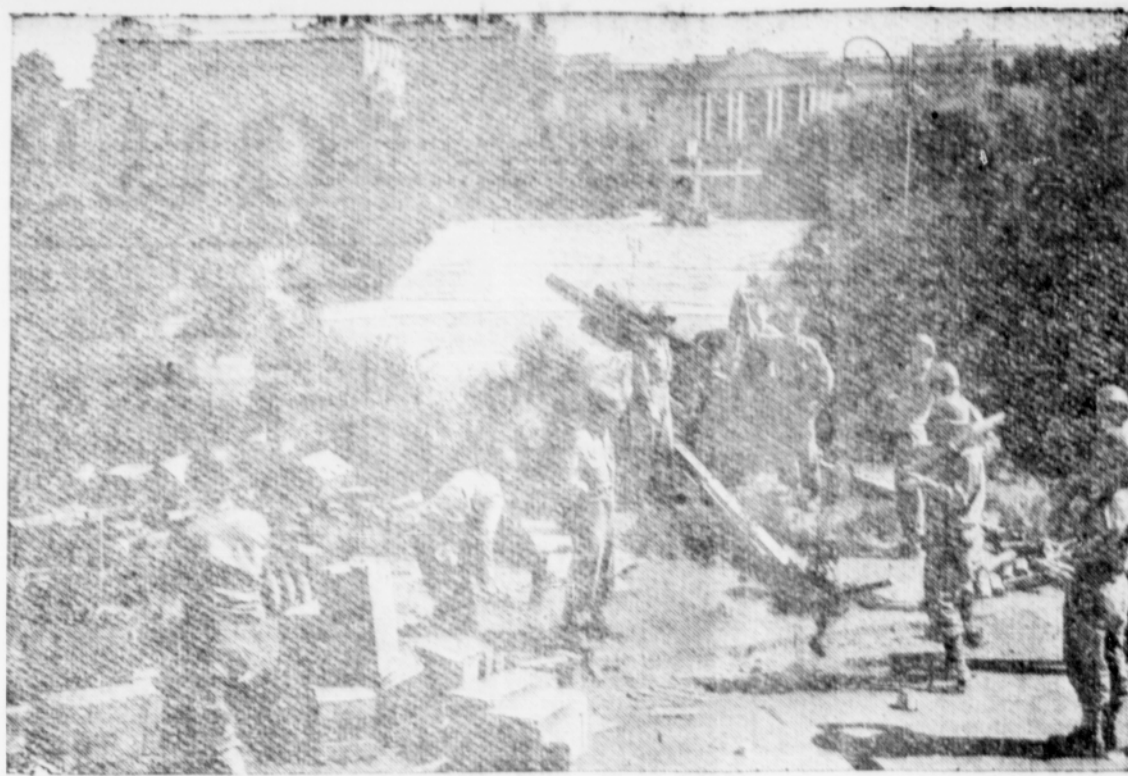

CAMP COOKE, Cal.—Pvt. Eugene F. Hansen of Hillsboro, a member of the 33rd armored infantry battalion, undergoing combat training at this station, won honorable mention here recently in the 11th armored division's orientation essay contest, entitled, "Why We Fight." Troops in all outfits of the Thunderbolt division were eligible to compete in the contest for awards of three-day passes to their winners, and for the grand prize—a \$50 war bond, and a second division prize of a \$25 bond. Several score soldiers contributed essays.

The contest, arranged by the division orientation office, was part of its duties in helping to keep soldiers informed of the issues of the war and the progress of world events; and of their opportunities for off-duty education.

Enlists in Marines
PORTLAND—Dick Ogden, of route 1, Hillsboro, left for the San Diego marine corps base July 11, immediately following enlistment in the corps. At San Diego, Private Ogden will receive two months of "boot" training.

Ogden is the son of Mr. and Mrs. James T. Ogden and formerly attended the Hillsboro high school, where he was a football letterman.

ROME IN JUNE, 1944—In the grounds of a Roman palace an American gun crew is set up for action. They didn't know it then, but it was to become a race to catch up with the German army which right then was high-tailing it north. Like Montgomery, Lt. General Mark L. Clark uses plenty of artillery when he really goes into action. Have you gone into action by buying extra War Bonds?

Bushtown Flight Kit Overseas Hit

By Polly von Seht

American Red Cross worker in North Africa whose home is Windy Acre Farm, Scandia, Minn.

American Red Cross girls at an air transport command base on the African Gold Coast decided that transient plane crews and ground crews at lonely bushland outposts needed recreation and comfort kits to make their tedious flights and stations more comfortable.

From unused American Red Cross and Christmas boxes these enterprising girls took playing cards, razor blades, stationery, cigarettes, matches. To this they added magazines and even motion pictures of hometown Sunday newspapers. They descended upon the quartermaster corps and special service branch of the army for additional supplies. Result?

The Bushtown Flight Kit. Each kit, packed in a No. 16 paper bag, contains 6 magazines, 5 packages of cigarettes, gum, hard candy, Red Cross post cards, pencils, 20 pieces of V-mail, comb, razor blades, and other items.

Says Sara Smerud, American Red Cross worker from New Albion, Iowa, "We give the kit to a crew member, who places it aboard his ship with the understanding that if they do not need it themselves they will drop it off at some bush station where supplies are difficult to get."

Hundreds of Bushtown Flight Kits are distributed each month to ferry pilots, and are accepted as part of the equipment on each combat plane. One pilot enthusiastically remarked, "This is a swell kind of Red Cross service, and we sure appreciate it."

Li. Earl Johnson Gets Final Course

Li. Earl L. Johnson, 23, son of Mr. and Mrs. Andrew J. Johnson, of route 4, Hillsboro, is now receiving his final phase of training as bombardier of a B-24 Liberator bomber at Walla Walla army air field, Wash., a base in the 4th air force. Prior to joining the army air forces Li. Johnson was a student at Oregon State college.

It is at the Walla Walla air field that combat crews on the mighty Liberator bomber are formed and here that final training is given. Before arriving at Walla Walla the men have finished a specialist school in preparation for their particular job. When they become members of a combat crew, their individual talents are coordinated and they become a unified fighting team.

HOW TO KEEP TREES HEALTHY

(by using a certain* Diesel oil)

Trees manage to keep healthy without bending exercises. But not without a healthy tractor on the place to turn under cover crops, furrow out, recultivate, etc.

Since tree health and tractor health are tied together like Siamese Twins . . . and fruit production is war production . . . every avoidable tractor breakdown in 1944 is practically sabotage.

Even though your tractor is a year older, there's a way you can help keep its rings from sticking, its cylinders from being scored. Use Shell Talpex Oil.

Shell Talpex Oil contains additives so valuable and so scarce that only Diesels in War Work (like yours) can have it. Order yours today.

OIL IS AMMUNITION—USE IT WISELY!

COOKING ADAPTABILITY? That's where the "CP" Gas Range shines! From low-temperature roasting to high-speed broiling . . . from a slow simmer to a fast boil . . . greater cooking adaptability is built in!

BEST FOR BROILING? None better! You get high speed instantly. The clean, smokeless, spatterless flame seals in the natural juices, reduces oven cleaning to a bare minimum.

AUTOMATIC OVEN HEAT CONTROL? Yes, of course! at low heat or high, only a "CP" Gas Range can assure you the utmost in constant, fully automatic temperature control . . . perfection in all your bak-

ing and roasting operations; it's fuel-saving, too, because oven pecking is eliminated.

SUPER INSULATION? Not just two sides, or four sides, but all six sides of a "CP" oven are heavily insulated to keep the heat in the oven where it belongs and out of the kitchen. No waste of heat or fuel here!

ECONOMY IN OPERATION? You can't be extravagant with a "CP" Gas Range. Top burners and oven are controllable to the most minute degree. No wasteful reserve of heat. You use exactly what you need, no more.

* means "Certified Performance" . . . the mark of special quality appearing on ranges made by all high grade gas range manufacturers. Not in production now, but available to all after victory.
