A reminder...

COACH SPACE MUST BE RESERVED IN ADVANCE

on long distance S. P. trains

Lately, people have been coming to our stations at the last minute without a coach reservation, expecting to get a seat on a train. Frequently they have been disappointed as no space was available for them.

A year ago we established a coach reservation plan for all Southern Pacific trains, except local trains on short runs. We did this in the interests of our passengers, as our trains had been badly overcrowded.

The plan has worked well, but we think it is timely to remind people that coach reservations are still necessary on Southern Pacific.

If you plan to travel in a coach on a long distance S. P. train, here is what you should do:

Buy your coach ticket well in advance of the day the train leaves. You will then be given a free reservation check. This check does not entitle you to a particular seat in a particular car, but it is a permit to board the train. You will nearly always find a seat, but there may be times when people will have to stand because of emergencies.

You can get your ticket and reservations at any S. P. ticket office. Coach reservations cannot be made by telephone because telephone lines are overloaded with other calls.

Service men make coach reservations, too, but they are given preference, of course.

MOST IMPORTANT OF ALL—please don't try to travel by train unless your trip is important to the war effort. There just isn't room now on trains for vacation or other non-essential trips.

S.P.

The friendly Southern Pacific
