

## Early End European War Cannot Cut War Fund Agency Services Soon

SALEM—Early ending of hostilities in Europe cannot result in any immediate reduction in the services of national war agencies, according to a statement by Winthrop W. Aldrich, president of the fund, received here by Charles A. Sprague, president of the Oregon war chest.

Victory in the European theatre may, on the contrary, "increase rather than diminish the need for our help," Mr. Aldrich advised Mr. Sprague.

Mr. Aldrich's statement anticipates increased demands on war fund agencies arising from the morale needs of our forces when they become occupation forces, from the complicated problems in the repatriation of war prisoners, from the need for prompt aid to civilian populations in the newly liberated countries to supplement relief programs of UNRRA and other government agencies, and, principally, from the intensification of war in the Pacific. For this final phase of the war, the statement points out, "the USO, United Seamen's Service and War Prisoners' Aid must be ready for bigger tasks. We must remember too that the day is drawing near when the liberation of the Philippines, and an open door in China, will bring us face to face with traditional responsibilities which all Americans will gladly welcome."

European victory will create shifts in certain programs of war fund agencies, but, according to the fund's statement, budget processes have been set up to provide for this situation.

In appealing for public participation in the war chest campaign soon to start, Mr. Sprague called for continued support of the work of the fund's agencies, "until the day when our men and women in the armed forces are back in their homes."

Substantiating his conclusions as to the need for maintaining the services, Mr. Sprague made public the contents of letters recently received from three of the fund's members agencies—USO, War Prisoners' Aid, and United Seamen's Service.

The USO letter, signed by its president, Chester I. Barnard, points out that termination of the European war will bring an immediate increased demand and need for the entertainment of our armed forces overseas. Meanwhile, at the request of the authorities, USO camps have recruited 80

new units to provide entertainment in war hospitals. "It seems evident," Barnard concludes, "that there can be no abrupt curtailment of USO activities without detriment to the service we have undertaken to render."

John R. Mott, chairman of the war prisoners aid committee of the YMCA, in his letter sets forth his conviction "that the services of War Prisoners' Aid will have to be carried on at the present scale for 12 months, and that a diminishing but increasingly important service will be required throughout the better part of the second year."

Regarding the plans of United Seamen's Service, Douglas P. Palmer, its executive director, reports the opinion of the military authorities that demands for shipping have not reached their maximum and states that his agency anticipates a steady pressure for service to seamen that will require "maximum effort" for some time after the cessation of European hostilities.

**MUD—IN SOUTHWEST PACIFIC**—Every farmer who has waded through a rain-soaked field will appreciate the plight of Lt. Earl N. Corcoran of the Island Signal Depot, Guadalcanal, who is here seen struggling through the mud. The mud, due to prevalent rain, is nine inches deep at this point.

A \$25 fine was given Ethel Thrush in circuit court Friday when she waived indictment and pleaded guilty to a charge of selling alcoholic liquor to a minor. Fletcher B. Howell of Hillsboro Friday reported the theft of a portable radio from his room.

## OPA Announces Point Rise on Processed Food

Because of sharply increased point buying power in the hands of housewives resulting from the removal from rationing of many processed foods, Administrator Chester Bowles of the Office of Price Administration announced higher point values for items which are still rationed.

The new point values, which will be used until the end of the rationing period on September 30, apply to canned and bottled fruits for fruit and vegetable juices, canned tomatoes, catsup and chili sauce.

With few exceptions, the new point values are approximately double their former values. For example, peaches, pears and pineapples, which had an old point value of 45 points for a No. 2 1/2 can, have been increased to 90 points per can. Pineapple juice increased from 25 to 50 points for the No. 2 (18-ounce) can. However, tomatoes, which had a value of 5 points for a No. 2 can, were increased to 25 points.

All of the new values are fixed in multiples of 10, because the system of blue tokens as ration change is being discontinued Sunday. Blue tokens may be used in units of 10, because the system of blue tokens as ration change is being discontinued Sunday.

**Meats Remain Unchanged**  
As announced earlier, processed foods being removed from rationing are all jams, jellies, fruit butters, asparagus, lima beans, corn, peas, pumpkin and squash, mixed vegetables, baked beans, all the varieties of soups and baby foods. Other vegetables except tomatoes have been ration-free for some time.

Red point values on meats, butter and dairy products are unchanged. However, combination dinners, formerly on the processed food chart, are being shifted to the red point chart, with a one-point value for cartons containing from 1 to 1 1/2 ounces of grated cheese.

Tomatoes can be served in a variety of ways, but their flavor combines particularly well with meats. Try adding 1 cup of fresh or canned tomatoes to your favorite recipe for a 1 1/2-pound meat loaf that calls for about 1 cup of soft bread crumbs as a binder. A delicious gravy can be made if you pour 2 1/2 cups of tomatoes over a hot roast during the last hour of cooking. Add a cube of garlic and a little thyme for extra flavor.
