Remember too, that when a man or woman dons the uniform of our armed forces, they are offering their lives for their country, its people and way of living. So when you are asked to donate to the RED CROSS WAR FUND, do it willingly and GIVE MORE THAN EVER BEFORE.

In the Selection of a Monument

Memorials are more than mere blocks of marble. They are personal chapters in the history of our day, and constitute living inscriptions in the mosaic of the world.

That is why great care should be taken in the selection of a design. It is a symbol as well as a marker and the ideal memorial is one that symbolizes the character of the one it commemorates.

Many years experience enable us to give you sound advice in the selection of an appropriate design.
