Why? Because the Ford of the future is going to be the sort of car you have always liked . . . and bought. It will be big, smartly styled, with real comfort and plenty of power. Naturally, it will be a car you can depend on . . . reliable in the finest Ford tradition.

We hope you won't have to wait long for your Ford of the future . . . but it will be well worth waiting for.

Fat-Salvage Bee To Aid in Licking National Fat Shortage

It's been ages since we had an old-fashioned "bee" in these parts, but just as we've always pitched in to help a neighbor, so must we pitch in for our country.

To help make hundreds of battlefield and home-front essentials, more used fats are needed than are on hand. City folks are trying to make up the deficit of over 1,200,000,000 pounds. But their fats aren't enough.

Women in small cities, towns and rural districts must also save every drop of fat. Not just big amounts. But scraps off plates, meat trimmings. Melt them down once a week. Your butcher will give you up to 4¢ and 2 red points a pound. If you have any difficulty, call Home Demonstration or County Agent.
