Polio Campaign Opens on Monday

(Continued from page 1)

tatively scheduled for February 2.

County Gets Half

One half of all money collected in Washington county will remain here to finance the hospitalization, care, and treatment of local sufferers, according to Chairman Antrim, and the other half goes to headquarters of the national foundation and is used for continuing research, education, and emergency aid in epidemics throughout the nation.

"Poliomyelitis," he pointed out, "is one of the most expensive diseases known to medicine. Hospitalization for a single patient costs more than $2,500 a year. Some cases require continuing care for several years. Not only must many victims of past epidemics receive continuing care, but each year's outbreaks add new names to the steadily growing list. Few families can meet the cost of polio treatment. Through the annual March of Dimes, treatment and care can be assured for all polio victims regardless of age, race, creed, or color."

Antrim announced the following campaign directors for the county: Aloha (Reedville, Hazeldale, Huber, McKinley)—Mrs. Robert Andros, route 3, Beaverton. Banks (Roy, Manning)—Violet Dreeszen, box 32, Banks. Buxton—Mrs. H. May Quier, Buxton. Cornelius—Mrs. Bernice Hodge, route 2, Cornelius. Dilley (Scoggins Valley)—Mrs. John Anderson, Dilley.

The answer to atomic bombs is a spiritual upheaval.

Accurate Bombing In Europe Cited

Remarkable precision bombing by American air forces in the European theatre of operation through use of the Norden bomb sight and radar was cited Wednesday at the Lions club luncheon by Bob Gruenig of the Commercial National bank. Gruenig served as first lieutenant in the air forces and is a veteran of 30 missions as a bombardier in B-17s over Germany.

Radar made possible the accurate bombing of targets through heavy undercast, he said. This equipment and the Norden bomb sight were carried in the lead and deputy lead bombers in the formation, other bombardiers dropping their bombs when the first missiles appeared from the lead plane.

Leland I. Deal was program chairman.
